CERTIFICATION OF FINAL FORM OF A *PAPER* THESIS OR DISSERTATION

Both the author and the director (or his/her designee/committee members) of a dissertation or thesis are expected to carefully proofread the final manuscript before it is submitted for the approval of the Dean of Graduate Studies.

The author and director each declare that the following conditions have been met:

1. All changes required by the dissertation or thesis committee have been incorporated into the manuscript;
2. The manuscript is essentially perfect with regard to its physical condition and form (margins, paper size and quality, spacing, type fonts);
3. The manuscript is complete and properly arranged (all appropriate sections are included, and all pages are numbered and in proper order);
4. The manuscript is without errors in the use of language (grammar, spelling, punctuation);
5. The reproduction quality of the manuscript is high (pages are clean and without streaks or smudges);
6. The manuscript is completely ready for binding and microfilming.

Please refer to the Thesis and *Dissertation Submission Guidelines* available from the OGS and your academic department. The Dean of Graduate Studies will have final authority with regard to the standards of quality listed above. Failure to meet these standards will result in the return of the manuscript to the student, and could cause the student's graduation to be delayed.

We have carefully read the accompanying **paper manuscript** in its final form, and affirm that it conforms to the standards listed above. All committee members must sign this form.

Author (Print Name)	Committee Member Signature / Date
Author (Signature) Date	Committee Member Signature / Date
Committee Chair (Print Name)	Committee Member Signature / Date
