The University of New Mexico
From
Diné College**

A Transfer Articulation Guide based on Diné College Catalog Year
2007 – 2008

Apply to UNM on-line at www.unm.edu

Transferring to The University of New Mexico from Diné College (2007-2008 Catalog)

Revised 12/04/2007

The University of New Mexico and Diné College work closely to ease your transition from Diné to UNM. This information is provided to assist you in planning a transfer program. Contact specific UNM Advisement Centers for major requirements and remain in close contact with your Diné advisor.

Satisfactory completion (Grade of “C” or “CR”) in ENG 100A, 100B, MATH 051, and FST 131 will satisfy UNM Introductory Studies requirements. These hours will not, however, transfer nor be counted toward any degree program because they are college-preparatory courses.

While UNM does not ordinarily transfer technical or occupational coursework, the College of Education developed a baccalaureate degree program in Organizational Learning and Instructional Technologies for students who have earned associate of applied science degrees in certain fields. The program, which provides quality education for individuals interested in improving the learning experiences of adults in corporate settings, allows a maximum transfer of credits from approved technical disciplines in community colleges and Post-secondary technical institutes. For additional information, contact the program director at 277-4132.

For the most current transfer information this guide is available on-line and updated as necessary; check the UNM website: www.unm.edu, click on “Future Students” and follow the links to “How to Transfer to UNM.”

Unless otherwise indicated, the following courses, with a minimum grade of “C” are fully transferable to UNM. Please note that course transferability does not ensure meeting specific degree requirements. Some classes must be completed with a “C” or better in order to fulfill prerequisite or degree requirements. Where applicable, courses are cross-listed with their UNM equivalents. In most situations where more than one course is required to meet the UNM equivalent, the excess hours will be applied to general university electives. If there is no equivalent UNM course number listed, the class may or may not be applied toward core requirements or as elective credit in a degree program.

Diné courses that list University of New Mexico equivalents have been approved by UNM departments offering the respective courses at UNM. Transfer courses that do not list UNM equivalents may or may not satisfy specific degree requirements. You *must* check with UNM department, college, or school advisors to verify if these courses apply to your specific degree program.

The provisions of this transfer guide are not to be regarded as an irrevocable contract between the student and The University. The University reserves the right to change any provisions or requirements at any time.

Diné Course

UNM Equivalent

Biology

The Department of Biology at UNM has recently revised its introductory sequence for Biology Majors. BIOL 121L, 122L, 219 and 221 have been phased out and a new sequence of courses has begun. The new courses are BIOL 201 (Molecular and Cell Biology), BIOL 202 (Genetics), BIOL 203L (Ecology and Evolution) and BIOL 204L (Plant and Animal Form and Function). Students who take courses equivalent to the old curriculum will still receive Biology credit at UNM. If the equivalent of the old curriculum is completed by June 2005, no additional introductory courses will be required. If courses equivalent to all or part of the old curriculum are completed after June 2005, credit will be given, but some additional introductory courses will also be required. For further information, please contact the Department of Biology at 277-4392
