

Unless otherwise indicated, the following courses, with a minimum grade of “C” are fully transferable to UNM. Please note that course transferability does not ensure meeting specific degree requirements. Some classes must be completed with a “C” or better in order to fulfill prerequisite or degree requirements. Where applicable, courses are cross-listed with their UNM equivalents. In most situations where more than one course is required to meet the UNM equivalent, the excess hours will be applied to general university electives.

Navajo Technical College courses that list University of New Mexico equivalents have been approved by UNM departments offering the respective courses. Transfer courses that do not list UNM equivalents may or may not satisfy specific degree requirements. You *must* check with UNM department, college, or school advisors to verify if these courses apply to your specific degree program.

The provisions of this transfer guide are not to be regarded as an irrevocable contract between the student and The University. The University reserves the right to change any provisions or requirements at any time.

Science

The Department of Biology at UNM has recently revised its introductory sequence for Biology Majors. BIOL 121L, 122L, 219 and 221 have been phased out and a new sequence of courses has begun. The new courses

are BIOL 201 (Molecular and Cell Biology), BIOL 202 (Genetics), BIOL 203L (Ecology and Evolution) and BIOL 204L (Plant and Animal Form and Function). Students who take courses equivalent to the old curriculum will still receive Biology credit at UNM. If the equivalent of the old curriculum is completed by June 2005, no additional introductory courses will be required. If courses equivalent to all or part of the old curriculum are completed after June 2005, credit will be given, but some additional introductory courses will also be required. For further information, please contact the Department of Biology at 277-1404.
