Ojito de San Antonio Youth Presentations

Wildlife presence, historic fruit trees, and perennial springs that provides water to the local community as an acequia are all unique aspects of Ojito de San Antonio Open Space that require special care. Open Space staff has teamed up with the East Mountain High School students to help manage the natural resources and are taking this opportunity to inform the public about the student's projects.

Following the presentations we will feature a short and compelling film, *That Which is Most Precious, La Fiesta de San Antonio, NM*, that presents the historical and cultural relevance of the property.

Agenda:

- Student led presentations
- Q& A
- *That Which is Most Precious, La Fiesta de San Antonio, NM*, presented by Professor Enrique LaMadrid and Film Director TJ Martinez.

This workshop is develop in partnership with the East Mountain High School and Master Naturalists
For more information about the school, visit www.eastmountainhigh.net.
