SUBJECT: Tax Reporting Compliance Questionnaires for Fiscal Year ending 6/30/09
        Unrelated Business Income Tax (UBIT) Questionnaire

Please complete and return this entire document (even if certain sections do not apply to your department) to Unrestricted Accounting-Main, Taxation Issues, MSC01 1260, no later than September 1, 2009.

If you have any questions, please contact Joy Germack, 505-277-0875 or Joan Ferrell, 505-277-0621, or email tax@unm.edu.

Thank you for your assistance with these important compliance efforts.

The purpose of the following questionnaire is to request your assistance in fulfilling the University’s annual tax reporting requirements for Fiscal Year 2009. Your assistance is vital to ensure that the University completely and accurately complies with legally mandated reporting of unrelated business income.

You do not need to list activities that are historically already being reported on UNM’s Unrelated Business Income Tax return.
UNM UNRELATED BUSINESS INCOME

The IRS requires tax-exempt organizations such as UNM to declare and pay tax on net income from any activity unrelated to its basic business purposes. UNM’s tax-exempt purposes are primarily education, research, and patient care/health care. See UBPP 1000.

The IRS considers an activity to be unrelated if it meets all of the following criteria:
- It is not substantially related to the organization’s tax-exempt purposes,
- It is a trade or business (defined by the IRS as any activity carried on for the production of income from selling goods or performing services),
- It is regularly conducted (frequency and continuity are key in this assessment).

All the facts and circumstances regarding whether or not an activity is related must be weighed and considered.

UNM is not prohibited from engaging in activities that generate unrelated business income, but the IRS requires that we report net operating results, including net losses, from each unrelated activity. Net losses may be used to offset net income and, therefore, reduce the total tax liability of the University.

The questions are designed to help assess the revenue-producing activities in your department during Fiscal Year 2009.

Only consider revenue produced from sources outside UNM; do not report revenue produced from sales of goods and services to other UNM departments; do not report activities that are historically already being reported on UNM’s Unrelated Business Income Tax return.

If your area does not generate any revenues, or if the revenue is clearly related to the stated exempt purposes of the University, please make a note on the questionnaire and return to MSC01-1260.

Taxation issues staff will review the completed questionnaires, and may ask you to provide further information about potentially unrelated activities.

Thank you.
UNRELATED BUSINESS INCOME ACTIVITIES

Does your department generate external revenues from any of the following activities?

As part of the assessment of whether your department has generated any unrelated business income, please review the activity in your revenue account codes. Income reported in revenue account codes will show potential sources of unrelated business income. Please note to the left of each item, Yes or No. If yes, proceed to Parts I-VI below, and answer all questions completely to the best of your knowledge. If you have more than one source of potential unrelated business income, please make a copy of this Questionnaire and complete for each different activity.

A. Advertising
B. Sales to the public
C. Catering and food service sales to the public
D. Commercially sponsored research
E. Computing resource leasing (i.e. software maintenance and support)
