

# Transferring to The University of New Mexico

# from El Paso Community College 2008 – 2010 Catalog

*Revise 10/29/2008*

The University of New Mexico and El Paso Community College work closely to ease your transition from EPCC College to UNM. This information is provided to assist you in planning a transfer program.

While UNM does not ordinarily transfer technical or occupational coursework, the College of Education developed a Baccalaureate Degree program in Organizational Learning and Instructional Technologies for students who have earned an Associate of Applied Science degree in certain fields. The program, which provides quality education for individuals interested in improving the learning experiences of adults in corporate settings, allows a maximum transfer of credits from approved technical disciplines in community colleges and post-secondary technical institutes. For additional information, contact 277-4131 or 277-4132.

*For the most current transfer information this guide is available on-line and updated as necessary; check the UNM website: [www.unm.edu](http://www.unm.edu), click on “Future Students” and follow the link to “How to Transfer to UNM.”*

Unless otherwise indicated, the following courses, with a minimum grade of “C”, are fully transferable to UNM. Some classes must be completed with a “C” or better (not C-) in order to fulfill prerequisite or degree requirements. *Please note that course transferability does not ensure meeting specific degree requirements.* Where applicable, courses are cross-listed with their UNM equivalents. In most situations where more than one course is required to meet the UNM equivalent, the excess hours will be applied to general university electives. If there is no equivalent UNM course number listed, the class may or may not be applied toward core requirements or as elective credit in a degree program.

EPCC courses that list The University of New Mexico equivalencies have been approved by the departments offering the respective courses at UNM. Transfer courses that do not list UNM equivalencies may or may not satisfy specific degree requirements. You *must* check with department, college, or school advisors at UNM to see if these courses apply to your degree program.

*The provisions of this transfer guide are not to be regarded as an irrevocable contract between the student and The University. The University reserves the right to change any provisions or requirements at any time.*
