NEW INTERNATIONAL STUDENT ENROLLMENT **FALL 2011**

The following charts and tables are designed to help a reader understand the current trends in new international student enrollment at the University of New Mexico (UNM). **It is critical to note that the numbers below only include students who: 1) completed the admission process, 2) were admitted to UNM, and 3) received immigration documents from the University.** The numbers **do not** include international students who applied and were not admitted, nor do they include those who were admitted but canceled their admission prior to receiving immigration documents from UNM. These numbers also **do not** include academic students who were admitted to the University on non-student visa types (those other than F1 or J1 visas). Students who are on other visa types (e.g., H-1B, J-2, F-2, TN, etc.) are **only** included here if they are full-time exchange students or intensive English students. Furthermore, these numbers also **do not** include F-1 and J-1 students sponsored by other institutions who enroll part-time at the University of New Mexico.

The statistics included in this report separate the incoming international students at UNM into the following categories:

- Doctorate
- Masters
- Undergraduate (Associates and Bachelors)
- Other (Certificate programs, such as Tamarind Professional Printing Program)
- Exchange
- Intensive English (CELAC)

Exchange students are analyzed separately, as these students are not receiving degrees or certificates from the university, but are taking coursework for one semester or year only, pursuant to an exchange agreement between UNM and their home institution. Intensive English students are also listed separately as these students are enrolled in the Center for English Language and American Culture (CELAC) program at UNM, which is a non-transcripted UNM program.

Observations:

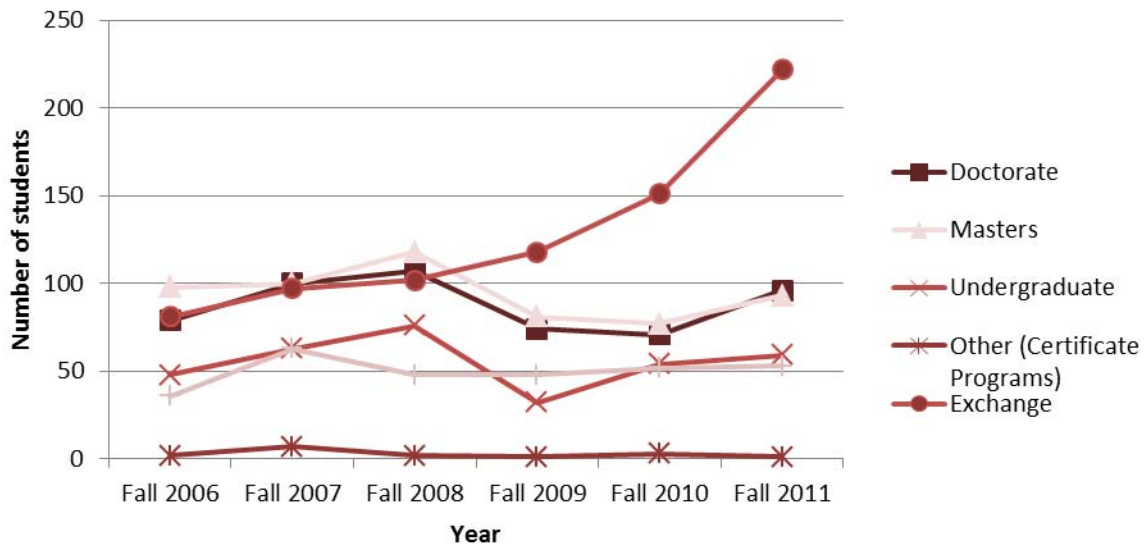

- The total number of new international students admitted at UNM in all programs (degree, exchange and CELAC) for fall 2011 increased by 28.43% over fall 2010. The total number of new students admitted into degree programs increased by 22.77% over fall 2010.
- Of those who enrolled at UNM, there was a 63.22% increase in new international graduates (87 to 142), a 17.5% increase in new undergraduates (40 to 47), a 49.3% increase in new Exchange students, and 5.7% decrease (35 to 33) in new Intensive English students over last year.
- Of the new international student population enrolling for fall 2011, Graduate students comprise 32.64%, Undergraduates 10.8%, Exchange students 48.74% and Intensive English students 7.59% of the total.
- This year 83.01% of all students who completed the admission process enrolled at the university, compared with 75.24% last year. In other words, the yield increased by 7.77% over fall 2010. Counting degree-seeking students only, the percentage was 76.21% this year and 62.87% last year. In other words, the degree-seeking student yield increased by 13.34% over fall 2010.
- For Fall 2011, newly enrolled students came from 70 countries.
