

BOARD OF REGENTS

Agenda Book

**September 10, 2020
9:00 AM Open Session
Virtual Meeting**

Special Meeting of
The Board of Regents of the University of New Mexico
 September 10, 2020; 9:00 AM Open Session
 Livestream of Virtual Meeting¹: <https://live.unm.edu/board-of-regents>

AGENDA *(revised)*

TAB

- I. Call to Order, *Regent President Douglas M. Brown*
 - a. Confirmation of a Quorum
 - b. Approval of the Agenda
- II. Approval of Minutes: July 14, 2020 special meeting 1

Public Comment² *(limit 3 min.)*
Comments from Regents
- III. President’s Introductory Comments, *Garnett S. Stokes*.....2
- IV. Approval of FY22 Legislative Funding Requests: New and Expansion Requests for Research and Public Service Projects [RPSP]3
Barbara Damron, Chief Government Relations Officer
- V. Information Item: UNM HSC June 30, 2020 Unaudited/Preliminary Financial Statements, *Ava Lovell, Senior Executive Officer for Finance & Administration, HSC*..... 4
- VI. Adjourn

¹Under the current guidelines from the Governor, and in order to slow the spread of COVID-19, the UNM Regents will meet online on the Zoom platform. Additionally, following the NM Attorney General’s recent guidelines for Open Meetings Act compliance, public access to view or listen to Regent meetings is provided via a livestream of the virtual meeting. To view the livestream, go to the following link: <https://live.unm.edu/board-of-regents>

²Public comment will be heard during the meeting. Due to the nature of online meetings and the logistics of getting speakers connected, anyone wishing to provide public comment during the meeting *must register their intent to speak before noon on Wednesday, September 9, 2020*. In order to sign up for public comment, please email regents@unm.edu, [or call 505-277-7639 and leave a message] with the subject, “Request to provide public comment at 9/10 Regent’s Meeting”, and include the below information:

- 1. First name and last name
- 2. Email address and telephone number
- 3. Affiliated organization (if applicable)
- 4. Professional Title (if applicable)
- 5. Topic you would like to address

*Please consider submitting your comments in writing to regents@unm.edu, and in the case of connection difficulties during the public comment time, your comment will be read aloud during the 3 minute time limit.

Instructions on steps to follow in order to provide public comment will be emailed to registered speakers.

**Minutes of the Special Meeting of
The Board of Regents of the University of New Mexico
July 14, 2020; 9:00 AM**

Open Session – virtual meeting via Zoom; livestreamed for public viewing

Members present

Douglas Brown, President
Kim Sanchez Rael, Vice President
Sandra Begay, Secretary/Treasurer
Rob Doughty
Melissa Henry
Marron Lee
Robert Schwartz

Administration present

Garnett S. Stokes, President; James Holloway, Provost and EVP for Academic Affairs; Paul Roth, EVP and Chancellor for Health Sciences Center; Teresa Costantinidis, SVP for Finance and Administration
Loretta Martinez, Chief Legal Counsel; Cheryl Willman, Director and CEO, UNM Comprehensive Cancer Center; Assata Zerai, VP for Equity and Inclusion; Ava Lovell, Sr. Executive Officer for Finance & Administration, HSC; Francie Cordova, Interim Chief Compliance Officer, Director of OEO, ADA Coordinator; Duane Arruti, CIO; Dorothy Anderson, VP HR; Dan D. Garcia, VP Enrollment Management; Eddie Nunez, Athletic Director; Dan D. Garcia, VP Enrollment Management; Cinnamon Blair, Chief University Marketing and Communications Officer; Connie Beimer, Int. VP Alumni Relations; Liz Metzger, University Controller; Terry Babbitt, President's Chief of Staff

Advisors present

Muskan 'Mia' Amin, President, ASUNM; Chad Cooper, President, UNM Alumni Association; Kevin Malloy, President, Retiree Association; Nikhil Naguru, President, GPSA; Nancy Shane, President, Staff Council

Presenters in attendance

Bonnie White, CFO, UNM Hospitals; Norma Allen, Director, University Budget Operations; Nicole Dopson, Director, Financial Operations, Provost's Office; Rodney Martinez, CFO, Comprehensive Cancer Center; Tom Neale, Director Real Estate; Alexandra Benjamin, Chair, Harwood Foundation Governing Board; Ryan Mummert, UNM Foundation Investment Committee chair; Kenny Stansbury, UNM Foundation CFO

CALL TO ORDER AND CONFIRMATION OF A QUORUM

Regent President Douglas M. Brown called the meeting to order at 8:02 AM and confirmed a quorum with six members attending virtually via Zoom. At 8:08 AM, all seven members were in attendance.

VOTE TO ADOPT THE AGENDA

The motion to adopt the agenda passed unanimously (1st Doughty; 2nd Begay; roll call vote – all members voted yes).

VOTE TO CLOSE THE MEETING AND PROCEED IN EXECUTIVE SESSION

The motion to close the meeting passed unanimously (1st Doughty; 2nd Schwartz; roll call vote – all members voted yes).

Executive Session Agenda

- A. Discussions subject to attorney-client privilege pertaining to threatened or pending litigation as permitted by Section 10-15-1(7), NMSA (1978)
- B. Discussion of personally identifiable information about a student, as permitted by Section 10-15-1.H(4), NMSA (1978), as amended

VOTE TO OPEN THE MEETING

The vote to re-open the meeting was unanimous; the meeting re-opened at 9:00 AM. The livestream of the virtual meeting for public viewing was reconnected. Regent President Brown certified that only those matters described in the closed session agenda were discussed and there was one item upon which to action would be taken in open session.

The motion to deny a request by an individual student, dated June 3, 2020, for the Board's discretionary review of an appeal of an OEO determination, passed unanimously (1st Begay; 2nd Henry; roll call vote - all members voted yes).

APPROVAL OF MINUTES OF THE MAY 12, 2020 REGULAR MEETING

Before approval of the minutes, Regent Brown asked if members had any corrections, deletions, or changes to the draft minutes. There being none, he asked for a motion.

The motion to approve the minutes of the May 12, 2020 regular meeting passed unanimously (1st Schwartz; 2nd Henry; roll call vote - all members voted yes).

PRESIDENT'S ADMINISTRATIVE REPORT

President Stokes said part of her report would be a standard administrative report and part would be a preview related to things that the Legislative Finance Committee has asked about. In the area of celebrations, President Stokes called attention to recent UNM successes, including Fulbright awardees, Udall Scholar recipients, women in STEM awardees, UNM's Top-100 patent ranking in the world, and recent faculty distinguished professor promotions. President Stokes touched on recent issues on the minds of Lobos, including law enforcement, the Zimmerman Murals, building naming, and student visas related to international students. There are potential regulations that would make it very difficult for international students who have decided for health reasons to go entirely online - it would force those students to leave the country. This has created much hardship and fear for these students. UNM has 1000 international students, all an integral part of the UNM community both at the undergraduate and graduate level. New Mexico has joined other states in playing an active role in discussions about these potential regulations. President Stokes said UNM has some great new deans and commended Provost Holloway for overseeing successful searches. The College of Fine Arts' new dean, Harris Smith, will start August 1st. Dr. Smith has a theatre and acting background and comes to UNM from the University of Utah, where he was chair of the department of theater. The search for the new EVP for Health Sciences is ongoing with the final four candidates scheduled to visit campus later in the month. Constituent groups will meet each of the candidates via zoom meetings, and open forums are scheduled to allow for community involvement. President Stokes will solicit feedback about the candidates from all constituents for this critical position.

President Stokes reported on academic performance during COVID-19. In mid-March and early-April, UNM had to move very fast to help students and faculty move to a completely remote teaching and learning environment in order to complete the spring semester. There was serious concern about student progress during the transitioning to the online environment, so policy adjustments were made to allow for the large utilization of Credit, No-Credit grading. Comparing the spring semester data with 3 prior years' data, there were more students who took advantage of the Credit, No-Credit option (2,838 students vs. around 100 in each of prior years). There were also far fewer withdrawals from classes than past years, and this allowed students to continue to make progress toward their degree, which was a high priority. Also seen was an increase in the number of A and A+ grades which led to an increase in GPAs for the semester. This was as a result of the significant interventions that were put into place to help students be successful.

President Stokes discussed enrollment projections. The COVID-19 crisis really has universities and colleges across the country reeling. Current projections for Fall compared last Fall look at student registrations at a point in time 6 weeks prior to term and show returning-student enrollment dropping by 5.12% (726 students), but new-freshmen enrollment is projected to increase by 3.73% (about 70 students), so the total overall decrease looks to be about 4.29%. President Stokes talked about possible enrollment factors due to the COVID-19 pandemic, including more resident students staying in New Mexico and less coming from out of state or internationally.

President Stokes discussed the plan to return to full operations in a phased approach. The planning is guided by a network of teams that have been addressing urgent priorities amid evolving conditions, addressing such areas as health protocols, external communications, space allocations, instructional continuity and student support, financial planning, and sports and athletics. Provost Holloway discussed in more detail the ramping up of research, scholarship, creative work, and community engagement. He discussed the hybrid fall class schedule, which is a relatively common model across the country. Smaller institutions across the country are actually predominantly going back and hoping to do largely

in person education, but institution of UNM's size and nature are planning the hybrid schedule. About 7% of classes will be fully in person, and about 25% partially in person, meaning they might meet once a week with the rest being remote. That leaves two-thirds of the classes that will be fully remote. Provost talked about specialized facilities for clinical and lab learning, limiting facility and classroom density and student housing density, and a ramped up virtual mentoring program for first-year students. He outlined testing priorities and response protocols that have been put into place. With contact tracing and coordination with the NMDOH, UNM will monitor changes in COVID infection within the UNM community.

President Stokes asked Paul Roth to speak about the Health Sciences Center's (HSC) activities during the COVID-19 pandemic. Dr. Roth spoke about the incident management team that was set up in early March and the protocols set up to guide the HSC in all of its missions. The crisis impacted all of the HSC's three missions, and so the HSC modified all operations to address education of learners, research, and meeting the health and well-being of all New Mexicans. Dr. Roth talked about the gating criteria for returning to full operations which would include, among other criteria, a greatly reduced reproduction rate (RO) of the virus and increased testing availability. He also talked about a phased clinical resumption plan, coordinated with the education and research mission, that includes monitoring, ongoing coordination, and a plan in place for a possible future surge. Dr. Roth discussed details about research phased resumption, administrative reopening, and academic phased reopening.

President Stokes addressed the Legislative Finance Committee's (LFC) request to look for ways in which the universities and colleges in New Mexico can collaborate. One example is the New Mexico Consortium of Academic Libraries (NMCAL) that turned out to be critical to cutting costs of libraries. Other possible areas of collaborations might be a shared research infrastructure and a shared procurement consortium, any areas that support the core mission and does not involve competition.

Regent Rael inquired if critical information is being supplied to students and families to help make decisions about coming to UNM, including decisions about housing and other financial decisions and if any policies are in place to allow for financial flexibility. President Stokes and SVP Costantinidis weighed in to answer her questions. In the spring, UNM did reimburse students for residence halls and the food program. When a decision needs to be made where it's safety versus flexibility and financials, the safety aspect trumps the others.

Regent Schwartz inquired about the criteria that would trigger UNM going back to fully online classes. President Stokes discussed COVID testing, contact tracing and leadership's constant evaluation of all the issues, and ensured that faculty and staff and the community are doing everything they can to protect the health of people while trying to continue the education for students. Provost Holloway discussed further the plans to keep the campus safe.

President Stokes closed her report with a tribute to Dr. Paul Roth who would be stepping into retirement at the end of the month. She likened Dr. Roth to an icon and a monument in our society, one deserving of respect and a permanent legacy. She thanked him for his support and for helping her make a safe landing and smooth transition when she came to UNM two years ago. President Stokes highlighted a few of the projects and initiatives that lie at the crossroads of education in medicine that uniquely define Dr. Roth's humane and inclusive world outlook. He came to New Mexico more than 40 years ago to serve as a resident physician in Family Medicine at UNM. Since that time, he also served as an attending physician and department chair, Associate Dean for clinical affairs, Dean of the School of Medicine, and UNM Executive Vice President. He also served as UNM's acting President for a while 2010. Just a few of his other accomplishments include improving access to healthcare and communities around New Mexico, creation of the combined BA/MD program, development of the Emergency Medicine Program, and as a nationally recognized leader in disaster medicine, he helped shape the national response to global disasters and crises and develop strategies to contend with an unprecedented global pandemic.

ADOPTION OF RESOLUTION HONORING DR. PAUL B. ROTH

Regent Schwartz continued the tribute to Paul Roth adding several notables to his legacy. Dr. Roth is not only EVP and Chancellor of the Health Sciences Center, but also CEO of the Health System and Dean of the School of Medicine, serving in all of those positions at the same time! And as mentioned, he was for a while acting president of UNM. Among his accomplishments is bringing underrepresented

groups into medical education in New Mexico and opening up the healthcare workforce in New Mexico so that it would look a lot more like the state and so better serve the state, and he was a decade or more ahead of the rest of the country in doing that. Of note, Dr. Roth was first in his family to go to college, and he made UNM Medical School one that is welcoming to first-in-college grads, to Hispanic students, and to Native American students. And to women who were a very tiny minority of the faculty and staff when he first came to UNM, he worked very hard to create an environment where everyone was welcome and where everyone could succeed, and the strides that have been made in that direction are extraordinary and exemplary on the national scene. Regent Schwartz expounded upon Dr. Roth's professional, medical and personal ethical principles, his adherence to those principles, as well as his compassion and humility - "He's just not somebody who takes the easy way out. He is a wonderful role model for his students, for his colleagues, and for all of us."

Regents, President Stokes, and several members of administration read in turn, out loud the resolution honoring Dr. Paul B. Roth. **[ATTACHMENT A]**

The motion to adopt the resolution honoring Dr. Paul B. Roth passed unanimously (1st Schwartz; 2nd Doughty; roll call vote - all yes votes).

Regent President Brown thanked and commended Dr. Roth and added it was a great pleasure to be able to pass the resolution.

ADOPTION OF RESOLUTION HONORING JUNE AND JOHN PEROVICH

Regent Brown introduced the resolution honoring June and John Perovich. John Perovich has been such stable support for the University in so many ways and most recently in his leadership of the Sandia Foundation Board. The Sandia Foundation provides indispensable support to UNM students, directing quarterly checks of scholarship funds to the University. The last quarterly distribution was \$365,625 and an additional contribution of \$50,000 to the John and June Perovich endowment scholarship will be directed, at Mr. Perovich's request, to UNM.

Regent Brown read the resolution honoring the Lifelong Lobo. **[ATTACHMENT B]**

The motion to adopt the resolution honoring June and John Perovich passed unanimously (1st Brown; 2nd Begay; roll call vote - all yes votes).

APPROVAL OF UNM ALUMNI ASSOCIATION'S NEW BOARD MEMBERS

Chad Cooper, President of the Alumni Association's Board, presented the eight names of candidates for membership on the board: Kenneth Armijo; Kyle Biederwolf; Aprilyn Chavez Geissler; Ryan Ferguson; Jessica Hurtado; Erica Kraus Muñoz; Susan Moczygamba-McKinsey; and José (Joe) Ortiz. He also discussed recent Alumni Association activities, events, and developments.

The motion to approve the 8 new board members to the Alumni Association Board passed unanimously (1st Schwartz; 2nd Begay; roll call vote - all yes votes).

PUBLIC COMMENT

Matías Fontenla, Faculty, Professor of Economics, spoke in support of including faculty in discussions about the budget, raises, and returning to campus, and in support of compensation increases for faculty.

Athena Christodoulou, Secretary, NM Solar Energy Association Board, raised awareness about oil and gas rig-count reductions in the state and globally - this is a key time to examine whether any investments in the fossil fuel industry is wise from a fiduciary perspective, for the state's economic development and diversification, and for the global climate.

Paula Corbin Swalin, Lobo Vocal Academy, Music Department faculty member, and UNM alumnus, asked UNM leadership to come to an agreement with faculty that assures transparency, clarity, equity and guidance during the COVID crisis, including how the University is handling the HVAC systems and management of non-University personnel on the campus.

Manel Martinez-Ramón, Professor, Department of Electrical and Computer Engineering, and proud member United Academics of UNM, spoke about the budget and advocated for fairness in negotiations with the union.

William 'Billy' Brown, Faculty, Instructor, Department of Mathematics and Statistics, advocated for faculty involvement in the budget process, not only for the annual budget, but the longer-term as well; urged seeking guidance on appropriate faculty participation in budget formulation and recommended the American Association of University Professors statement of 1972 (amended in 1990) on the role of faculty on budgetary and salary matters, from which Dr. Brown read excerpts.

Heather Sweetser, Lecturer, Foreign Languages and Literature Department, spoke about the importance of safely reopening UNM, protecting international students, and concerns for students who were living in the dorms when the COVID-19 pandemic broke out during the spring semester.

Nahir Otano Gracia, Assistant Professor of English, spoke about concerns for the health and safety of faculty colleagues who are having to decide how to open in the fall; also concerns about childcare if schools are closed, COVID-19 risks to older populations and concerns for faculty, staff and students, particularly non-traditional students; concerns about tenure track faculty, accommodations made during COVID and requested that clear information from leadership be made available.

Gary Cook, Associate Professor at UNM-Taos, advocated for UNM budget transparency with the faculty union and for faculty to have a voice, to be included in meetings, particularly regarding budgets.

ADVISORS' COMMENTS

Mia Amin, ASUNM President, spoke regarding the budget decision. For the fall semester, there is a petition going around among the student body to lower tuition and fees. Virtual learning does not provide the same experience as in person learning; and a lot of the buildings, facilities and services funded by student fees are not available. Ms. Amin asked the Regents to have good discussion on the budget before approving it and to give students a tuition break if possible. She asked to support students in the future by promoting ways to make college more affordable, departments more fiscally responsible.

Regent Begay encouraged attendance at the Finance and Facilities Committee meetings where there is more in depth discussion on budget issues, and she encouraged researching past years' recommendations on student fees and Regents' decisions with regard to tuition and fees so to get a good background as to where we are today.

Nancy Shane, Staff Council President, spoke about the difficulties for staff in the loss of the 4% compensation increase; concerns for possible furloughs or layoffs; the safety for staff returning to work; and possible challenges with childcare.

Nikhil Naguru, GPSA President, spoke about student concerns and supporting graduate students, collaborations, and the issue of tuition and fees.

COMMENTS FROM REGENTS

Regent Begay congratulated Dr. Roth on his retirement and on his very honorable career, and said, the gemstone that we forget in life is that people earn the right to retire, and it's a celebration that they've done a great career and have done a lot for their institution. She spoke about an especially poignant part of his career to her, that being his successful efforts to diversify the medical field, particularly with the BA/MD program that he started.

Regent Rael expressed appreciation for the work of the administration and the Regents on supporting the University through this trying time, and she emphasized that higher education (HE), not only UNM but everywhere in the country, will never be the same. This is a pivotal moment for HE institutions and it's certainly an extreme challenge, but is also an opportunity to reset and rethink the delivery of HE and how the future is going to look for the fiscal solvency of UNM and for all of HE across New Mexico and the country. She encouraged President Stokes and the leadership to think more broadly than ever before about how to leverage all the assets at UNM's disposal and avoid things like tuition increases, even look for opportunities like reducing fees, ensuring fees directly support students. She encouraged President Stokes and leadership to continue to work with the LFC and leaders in Santa Fe on the

concept of a strategic plan for all of HE across the state that optimizes UNM's ability to meet the HE mission for key constituents but does so in a more streamlined and cost effective way for all constituencies. There will be no return to business as usual, and she encouraged everyone to work together to take UNM and all communities to the next level.

Regent Brown said all of the public comments were very thoughtful and affirmed the importance of two-way communication with faculty, students, staff and all constituents about what's going on. The situation [during the COVID crisis] is fluid and changes day to day, and week to week, so active, continuous communication is critical.

APPROVAL OF CONSENT DOCKET

Regent Brown addressed the consent docket. There was no request for removal of any items for discussion. Regent Rael moved approval of the consent docket.

- A. Approval of UNM Hospital Disposition of Assets
- B. Approval of Election of Certain Directors of UNM Medical Group, Inc.
- C. Approval of Election of Certain Directors of UNM Sandoval Regional Medical Center, Inc.
- D. Approval of Disposition of Surplus Property for Apr., May, & June 2020
- E. Approval of 4th Quarter Financial Actions Report and Certification through June 30, 2020
- F. Approval of Real Estate Item: Maui High Performance Computing Center Annual Lease Renewal
- G. Re-Approval for UNM Popejoy Hall Artist Support Spaces Renovation

The motion to approve the items on the consent docket passed with a unanimous vote in favor (1st Rael; 2nd Schwartz; roll call vote - all members voted yes).

HEALTH SCIENCES CENTER COMMITTEE

Approval of Revised FY2021 Budget for HSC

Ava Lovell presented the item and referred to slides provided in the eBook. **[ATTACHMENT C]**

Ms. Lovell clarified this would be the first revised budget, as it is expected the budget will be revised again. This budget revision depict an overall \$11,096,000 cut from the original FY21 budget. The cuts include 4% reduction to I&G (-\$2,525,900); a 6% across the board cut to RPSPs (Research & Public Service Programs) resulting in \$2,484,800 reduction; a cut to original I&G funding in the amount equal to the CARES stimulus funding that was received for the COVID outbreak (-\$1,204,600); and cut to the compensation and fringe funding of \$4,880,700 that was in the original budget. Ms. Lovell showed a detail listing of the appropriations reductions and spoke about other possible budgetary impacts due to the COVID-19 crisis. Ms. Lovell presented the budget changes at the HSC component level, including the Academic Enterprise, UNM Hospitals, and the Medical Group. She also touched on next steps and strategies, including changing health professions' educational needs, clinical platform changes and continued pandemic adjustments.

Regent Begay clarified that UNM cannot make up for the state's compensation funding that was eliminated because that was money from the state. She emphasized the importance of understanding the color of money, separate pockets of funding that don't mix, for example funds toward the academic mission, research and grant funding, capital funding, and foundation funds.

Regent Schwartz said UNM could grant raises if it could save money someplace else. While there are funds that are committed, there are still an awful lot that are under UNM's control.

The motion to approve the revised FY2021 HSC budget passed unanimously (1st Henry; 2nd Brown; roll call vote - all yes votes).

Approval of UNM Comprehensive Cancer Center Integrated Informatics System

Cheryl Willman presented the item. The Cancer Center is facing its federal renewal and certification with the National Cancer Institute, and one of the new requirements for comprehensive cancer centers across the nation are for informatics, or Big Data artificial intelligence projects. The expectation is to

create an internal database that collects data on patients that are treated, including survivors and their outcome data. The first component will be to build an integrated HIPAA compliant data warehouse for existing and future patients and survivors throughout the state. The second platform will be an external facing, community database to look at statewide factors to model data to determine regions of the state in which to intervene to improve cancer prevention. An RFP went out for this contract. There were five respondents, and the chosen vendor was a local company, Resilient Solutions 21, Inc. The total project estimate is \$3,022,000, of which \$2.5 million will be funded with state RPSP funding, and the remaining from reserves and recent NCI grant funds.

The Regents congratulated Dr. Willman on the Cancer Center successes and this exciting project.

The motion to approve the CCC Integrated Informatics System passed unanimously (1st Doughty; 2nd Henry; roll call vote - all yes votes).

Approval of UNM Hospital Items:

1-Capital Project – New Hospital Tower Project – New Parking Structure Building (\$75,800,000)

2-Agreement with Cerner Corporation: Remote Hosting Services (\$34,788,936)

3-Agreement with Cerner Corporation: Existing Solutions (\$25,218,261)

4-Agreement with LivaNova re Vagus Nerve Stimulation therapy System (\$26,000,000)

Bonnie White presented each of the UNM Hospital items; after which the Regents voted on all four of the items together. The first item will be a 1,401 space, 7-level concrete parking structure to be constructed in multiple phases. The new structure will be constructed first, then the existing 500-car structure will be demolished to permit construction of the New Hospital Tower. The contract involved a construction manager at risk selection process, to which Bradbury Stamm Hunt was awarded. The total project construction budget is not to exceed \$75,800,000. The second item is a 7-year agreement with Cerner Corporation for an extension of the remote hosting software and infrastructure that is housed in Kansas City. UNM Hospital will extend the agreement to ensure no disruption in services to the Electronic Medical Record and all of the products that are currently in production. The total contract award is \$34,788,936 with projected annual costs just under \$5 million. The third item is a 7-year agreement with Cerner Corporation for an extension of the core Electronic Medical Record software renewal. UNM Hospital will extend the agreement to ensure no disruption in services. The total contract award is estimated at \$25,218,261 with projected annual costs of \$3.6 million. The fourth item is a ten-year agreement with a sole source, LivaNova, for a Vagus Nerve Stimulation Therapy System for the operating room. It is an FDA approved treatment of refractory epilepsy and treatment-resistant depression, currently a standard of care for surgical intervention in epilepsy treatment at UNM Hospital. Total projected contract amount is \$2.6 million over a ten-year period.

The motion to approve all four of the UNM Hospital items as presented passed unanimously (1st Brown; 2nd Doughty; roll call vote - all yes votes).

Information Item:

Amendment of Exhibit A of Regents' Policy 3.8 (which designates health care components of the UNM hybrid covered entity) to add the OEO and the Office of the Title IX Coordinator, when providing services and/or conducting investigations in respect to any of the health care components

Scot Sauder discussed the item. The only change to the policy is that the OEO and the Office of Title IX Coordinator were added to the policy's Exhibit A list. The Regents established UNM's HIPAA privacy compliance under this policy, RPM 3.8.

FINANCE AND FACILITIES COMMITTEE

Approval of the Main and Branch FY21 Budget Adjustment

Teresa Costantinidis presented the item, referring to slides that were provided in the eBook. **[ATTACHMENT D]**

This budget is based upon the revised NM State Budget House Bill that emerged from the special session of the New Mexico legislature and was signed by the Governor on June 30. SVP Costantinidis discussed the three state-funded changes to the original budget: 1-removal of the 4% compensation increase (-\$14.5 million); 2-sanding of the 4% I&G and 6% RPSP funding increases (-\$14.6 million); and 3-a reduction equal to the CARES stimulus funding that was received (-\$7.0 million). SVP

Costantinidis cautioned there is potential for additional general fund budget reduction and it is anticipated the state will need to impose additional budget reductions for FY22 as well. Provost Holloway presented a draft of the budget principles and strategies and discussed COVID-19 impacts. SVP Costantinidis discussed details of the overall budget adjustments for Main Campus and the branches. The overall budget adjustment for Main Campus has a \$33.5 million reduction to revenues, or 6.5%. There was discussion.

The motion to approve the Main and Branch FY21 Budget Adjustment passed unanimously (1st Lee; 2nd Schwartz; roll call vote - all yes votes).

Approval of Real Estate Item: Conveyance of Real Property Interests of Innovate ABQ to UNM Regents

Tom Neal presented the item. On behalf of the UNM's Administration, the Real Estate Department is requesting approval of the conveyance of the real property interest of Innovate ABQ to the Board of Regents. The primary components of the conveyance include the fee interest in the seven-acre site at the northwest corner of Central Avenue and Broadway Boulevard, the fee interest in the former church sanctuary, adjoining five-story tower, and an education wing. The conveyance also includes the leased fee interest in the CNM Fuse Makerspace and the long-term ground lease to Signet Enterprises, the developer of the Lobo Rainforest Building. There is not a fee or price associated with this conveyance. Upon completion of the conveyance, the Board of Regents will be responsible for operational and management control of the ownership. If approved by the Regents, this project will be co-managed by Rainforest Innovations and the Lobo Development Corporation. Mr. Neale expressed excitement to get this project back under the control of the Regents, as there are a lot of resources, including potential research resources and subject-matter experts, which will be able to reinvigorate this project.

The motion to approve the conveyance of real property interests of Innovate ABQ to UNM Regents passed unanimously (1st Schwartz; 2nd Rael; roll call vote - all yes votes).

Approval of the Appointment of Harwood Board Nominated Members, Shawn Berman, Patricia Day, Lucile Grieder, Cindy Grossman, and Sherry Parsons to the Harwood Foundation Governing Board and Approval of the Appointment of Harris Smith, Dean of the UNM College of Fine Arts, to the Harwood Foundation Governing Board

Alexandra Benjamin presented the item. The Delegation Resolution, adopted in 2007 by the Regents, delegated to the Harwood Board certain responsibility for the governance, oversight, management and operation of UNM's Harwood Museum. The resolution provides that the Regents shall appoint the members of the Harwood Board, including six (6) members appointed based on recommendations by the Harwood Board. The Harwood Board recommends, Shawn Berman (2-year term), Patricia Day (1-year term), Lucile Grieder (3-year term), Cindy Grossman (3-year term), and Sherry Parsons (3-year term) and also Harris Smith as an administrative appointment to a three-year term position. Dr. Smith is the new Dean of the College of Fine Arts and will replace Tom Tkach whose term is expiring.

The motion to approve the 5 Harwood Board Nominated members and Harris Smith, Dean of the College of Fine Arts, for appointments to the Harwood Governing Board passed unanimously (1st Lee; 2nd Schwartz; roll call vote - all yes votes).

Approval of UNM/UNM Foundation Consolidated Investment Fund Investment Policy Amendment

Ryan Mummert presented the item. The policy change adds a new asset class for Investments in University Strategic Priorities. Investments in University Strategic Priorities will be structured as loans from the Consolidated Investment Fund (CIF) to the University to provide capital for strategic priorities that have an expected financial return to the University. By allowing loans from the CIF, for University strategic priorities, UNM will have an additional option for financing mission-critical projects. Loans to the University under the new program will carry a fair-market interest rate with a maximum term of ten years. Projects will be certified as strategic priorities by the University's Senior Vice President for finance and Administration. Other amendments to the investment policy included updated logos for UNM and the Foundation and the name change for STC.UNM to UNM Rainforest Innovations.

The motion to approve the UNM/UNMF CIF Investment Policy amendment passed unanimously (1st Brown; 2nd Lee; roll call vote - all yes votes).

ADJOURN

There being no further business, Regent Brown asked for a motion to adjourn: Regent Begay motioned; Regent Rael seconded; all members voted in favor; the meeting adjourned at 12:42 PM.

Approved:

Attest:

Douglas M. Brown, President

Sandra K. Begay, Secretary/Treasurer

RESOLUTION HONORING PAUL B. ROTH, M.D., M.S.

WHEREAS, Dr. Paul B. Roth arrived at The University of New Mexico in 1976 to pursue a residency in family medicine; and

WHEREAS, Dr. Roth soon fell in love with the people and the place, and decided to make New Mexico his permanent home both professionally and personally; and

WHEREAS, it is impossible to do justice to Dr. Roth's innumerable accomplishments at the University of New Mexico over the past 44 years; and

WHEREAS, it is fitting to describe Dr. Roth's career at UNM and his contributions to the State of New Mexico as both remarkable and unparalleled; and

WHEREAS, as a faculty member, Dr. Roth helped launch the School of Medicine's Department of Emergency Medicine and the emergency medicine residency program, pioneering the concept of urgent care; and

WHEREAS, Dr. Roth also initiated the establishment of medical disaster response teams and served heroically on those teams on many occasions, including leading emergency response teams for the 9/11 terror attacks and hurricanes in the Caribbean, where he selflessly aided his fellow human beings in need; and

WHEREAS, Dr. Roth has served as Dean of the UNM School of Medicine for 26 years at a time when the average tenure of medical school deans nationally is eight years. During this time, Dr. Roth's leadership caused the School of Medicine student body to grow by 30 percent, the BA/MD program for New Mexico students from rural and underserved parts of the state was created, and medical school tuition was decreased each year to make medical school more accessible; and

WHEREAS, Dr. Roth's role at the Health Sciences Center was expanded when he assumed the role of Executive Vice President and Chancellor for Health Sciences in 2006, and since then, his leadership:

- fundamentally transformed the medical faculty practice plan through the creation of UNM Medical Group, Inc. in 2007,
- expanded UNM Hospital's operations through opening the Barbara and Bill Richardson Pavilion at UNM Hospital in 2007 and opening several community-based outpatient clinics throughout Albuquerque,
- opened the new Cancer Center facility 2009 and supported the University's successful effort to attain NCI-designation and NCI-comprehensive cancer center designation,
- transformed health care in Sandoval County by opening Sandoval Regional Medical Center in 2012,
- opened all three phases of the Domenici Center for Health Sciences Education,
- supported the University's successful effort to have a Clinical and Translational Science Center, and
- grew substantially the amount of extramurally-funded research at the Health Sciences Center from about \$60 million in 2006 annually to \$200 million annually in 2019, or 233 percent, making the University's Health Sciences Center a significant player in health-related research; and

WHEREAS, Dr. Roth has, throughout his tenure, been on the forefront of reducing health disparities and advancing health and health equity in New Mexico; and

WHEREAS, Dr. Roth successfully led the charge for more diversity and inclusivity at the School of Medicine and the Health Sciences Center, which is evidenced by increases in racial, ethnic, gender, sexual orientation and sexual identity diversity across staff, faculty, student and leadership; and

WHEREAS, in sum, during his tenure, the breadth and scope of the Health Sciences Center has grown exponentially, as has the diversity and strength of its student body, faculty and staff; and

WHEREAS, Dr. Paul Roth's humble, steady, focused, and compassionate leadership has positively impacted countless students, faculty, staff, and medical providers across the University community and has positively impacted the ability of all New Mexicans to have greater access to quality healthcare.

NOW, THEREFORE BE IT RESOLVED that, in light of his long and transformational contributions to the State of New Mexico and the University of New Mexico and the immeasurable impact Dr. Paul Roth has had on academic medicine nationally as well as UNM's students, faculty, staff, and providers, the UNM Board of Regents hereby formally expresses its great appreciation to Dr. Roth and honors his well-deserved retirement.

RESOLUTION HONORING JUNE AND JOHN PEROVICH

WHEREAS, John Perovich is a native New Mexican and lifelong Lobo, who grew up in Van Houten, NM, a mining community near Raton, NM; and

WHEREAS, John and his wife, June Perovich, met in high school and married in 1945 while they were students at The University of New Mexico; and

WHEREAS, in 1948, John began his career at The University of New Mexico as a student assistant; and

WHEREAS, he received a Bachelor's of Business Administration degree (1948) and a Master's of Business Administration degree (1949) from The University of New Mexico; and

WHEREAS, from 1948 and 1982, John held numerous positions at The University of New Mexico, including Purchasing Agent, Comptroller and Vice President for Business and Finance; and from 1982 to 1985, served as President of The University of New Mexico; and

WHEREAS, during his tenure as President, he was credited with increasing the number and award amount of Presidential Scholarships and raising funds for The University of New Mexico Foundation; and

WHEREAS, one of the most significant developments during his presidency was the expansion of the Medical Center, including Carrie Tingley Hospital. He was also instrumental in securing research grants and funding for two School of Engineering Chairs; and

WHEREAS, in 1985, John retired, completing 40 years of employment at the University of New Mexico, and was named President Emeritus of the University of New Mexico; and the Board of Regents named the building which houses the University Bursar's Office, the John and June Perovich Business Center.

WHEREAS, John and June Perovich established a University of New Mexico endowment that will benefit New Mexico students and UNM athletics in perpetuity; and

WHEREAS, in addition to his academic career, John has been very active in philanthropy, serving as the Board Chair of the Sandia Foundation for 48 years, as well as a board member of the Frank C. Hibben Charitable Trust.

BE IT RESOLVED by The University of New Mexico Board of Regents that John and June Perovich be recognized and celebrated for their lifelong service, commitment and support of The University of New Mexico and our students. Go Lobos.

FY 2021 Revised Budget
Tuesday July 7, 2020

FY 2021 Special HB1 Snapshot

HSC FY 2021 Original Budget has been cut \$11,096,000

- *4% sanding to I&G - \$2,525,900*
- *CARES Stimulus Swap as additional reduction to HSC I&G \$1,204,600*
 - *A “swap” was put into place by the legislature which cut the I&G appropriation to offset federal stimulus funds for lost physician billing revenue as result of the pandemic*
 - *One-time federal funds were used to supplant state appropriations*
 - *From the bill language, this ‘swap’ should be a non-recurring cut*

FY 2021 Special HB1 Snapshot, continued

- *6% across the board sanding to RPSPs - \$2,484,800*
 - *Large unsustainable cuts to two state-wide programs will be a challenge during FY2021 and forward: Office of Medical Investigator (\$345,600) and Poison Center (\$94,300)*
- *Compensation and fringe funding eliminated that was included in the Original FY2021 budget*
 - *\$4,880,700*

- All Units expected to use reserves to offset COVID related financial impacts in the short-term*

FY 2021 UNMH Budget Assumptions

The net margin for FY2021 Revised Budget is \$18.7M after a capital project commitment of \$30.4M. Original FY2021 Net Margin budget was \$11.6M.

The State of NM Human Services Department (HSD), the US Centers for Medicare and Medicaid (CMS) and UNM HSC have been developing a Medicaid Directed Payment program to bring greater healthcare access to New Mexicans. Work on this program is nearing completion and will have a positive impact to UNMH after negotiated rate reductions with payers. The Directed Payment impact has been estimated for FY2020 projections and for FY2021 Revised budget.

As a result of the Special Legislative Session, State appropriations for Children's Psychiatric programs and Children's musculoskeletal and orthopedic and rehabilitation programs were decreased \$2.2M in FY2021 revised budget.

FY 2021 UNMH Budget Assumptions

Compensation expense increased \$7.0M in FY2021 Revised Budget as compared to FY2021 Original Budget, primarily due to the need to hire contract nurses to staff hospital operations. UNMH has needed as many as 200 contract nurses to staff up and fill-in for illnesses and lack of childcare options for regular staff.

Compensation expense was also increased to continue implementation of recommendations related to salary structure from the Mercer compensation study.

The Revised Budget also shows increased supplies expense of \$5.4M, to cover price increases due to recent shortages of medical supplies and PPE.

The Revised FY2021 expense budget also shows the commitment for capital projects of \$30M, approved by the Board of Trustees toward building the new Parking Structure and central utility plant.

UNM Hospitals

*Comparative Analysis: Revised Budget – Original Budget
(In thousands)*

Total UNM Hospitals	FY 2019 Actuals	FY 2020 Projected Actuals	FY 2021 Original Budget	FY 2021 Revised Budget	FY 2021 Budget Change	FY 2021 Percent Change
Revenues	\$1,200,609	\$1,325,882	\$1,282,653	\$1,314,233	\$31,580	2.5%
Expenses	1,175,912	1,243,282	1,252,267	1,265,476	\$13,208	1.1%
Capital Project Commitments	23,000	30,000	0	30,000		
Capital from State Appropriation	0	33,589	0	0		
Net Margin	\$1,697	\$19,011	\$30,386	\$18,758		

- ***Directed Payment Program impacting FY2020 Actual and FY2021 Revised budget***

UNM Medical Group

Comparative Analysis: Revised Budget – Original Budget
(In thousands)

Total UNM Medical Group	FY 2019 Actuals	FY 2020 Projected Actuals	FY 2021 Original Budget	FY 2021 Revised Budget	Budget Change FY 2021	Percent Change FY2021
Revenues	\$231,654	\$272,070	\$281,686	\$277,523	(\$4,164)	-1.5%
Expenses	215,051	278,436	273,783	269,697	(\$4,086)	-1.5%
Net Margin	\$16,603	(\$6,366)	\$7,903	\$7,825		

- *FY2021 revenue decreases are driven by lower volume from the impact of COVID-19 clinic and procedure cancellations (80,000 canceled clinics through June 30, 2020) and 3% Medicaid rate reduction.*
- *FY2021 expense decrease due to reduction to purchased services and dean's taxes*

UNM Sandoval Regional Medical Center

*Comparative Analysis: Revised Budget – Original Budget
(In thousands)*

Total UNM SRMC	FY 2019 Actuals	FY 2020 Projected Actuals	FY 2021 Original Budget	FY 2021 Revised Budget	Budget Change FY 2021	Percent Change FY2021

Minutes of the July 14, 2020 Board of Regents Special Meeting)

Future Legislative Sessions

- There is a potential for additional general fund budget reductions in mid-year FY 21
- We anticipate that the state will need to impose additional budget reductions in FY 22 also

Draft Budget Principles and Strategies

We will:

1. Protect the critical core missions of providing education, creating new knowledge, developing creative works, providing patient care, and public service.
2. Protect core initiatives surrounding enrollment, student services, and critical infrastructure.
3. Protect initiatives surrounding compliance and safety.
4. Recognize that this crisis may exacerbate inequality, and we will make decisions to protect our most vulnerable students, staff, and faculty and continue to ensure social mobility for our students.
5. Develop incentive-based revenue generating activities and develop opportunities to generate new revenue streams.
6. Develop budget reduction and cost containment strategies that are fair, equitable and responsible.
7. Consolidate and reorganize, to the greatest extent possible, administrative functions such as: finance, human resources, IT, scheduling, student services, counseling services, and other administrative services in order to gain efficiencies.
8. Develop plans to reduce and/or gain efficiencies in building space, maintenance, and energy consumption.
9. Work with auxiliary units and athletics to develop business models that are sustainable for the short and long term.
10. Develop plans that do not adversely affect the University's bond ratings or its ability to make bond payments.

Expenses	\$35,914,605	\$41,363,948	\$42,308,720	\$39,854,206	(\$2,454,514)	-5.8%
Net Margin	\$1,844,068	(\$2,532,278)	(\$1,213,818)	(\$1,858,725)		

ATTACHMENT D Cont. (Attachment to the Minutes of the July 14, 2020 Board of Regents Special Meeting)

Next Steps

- Regent Approval of FY 21 Revised Budget
 - Submit BAR to HED
 - Colleges and Units will proceed to make detailed budget adjustments to accommodate reductions
- Determine Strategic Initiatives
 - State's Economy
 - Initiatives to Increase Revenues
 - Initiatives to Decrease Expenditures
 - Address COVID Impact

President's Introductory Comments

Garnett S. Stokes

President's comments will be delivered at the meeting

UNM Board of Regents
September 10, 2020

**FY22 UNM Research and
Public Service Project (RPSP)
Requests:
New and Expanded**

Recent Legislative Timeline regarding RPSPs

- **February 2020:** 2nd Session of the 54th Legislature approved RPSP funding for FY21
- **June 2020:** 1st Special Session of the 54th Legislature resulted in 6% cuts to all FY21 RPSPs funded in the 2nd Session of the 54th Legislature
- **For the 55th Legislature, January 2021:** Expansion request in this context (FY22 request) means restoring back to FY21 RPSP funding prior to the cuts that occurred during the June 2020 Special Session

- 2nd Session of the 54th Legislature FY21 RPSP Actuals (Feb 2020)
 - Total RPSP Funding: \$54,740,200
 - Main and Branches: \$13,325,800
 - HSC: \$41,414,400
- 1st Special Session of the 54th Legislature FY21 RPSP Actuals (June 2020)
 - Total RPSP Funding: \$51,455,790
 - Main and Branches: \$12,526,300
 - HSC: \$38,929,500
- 1st Session of the 55th Legislature FY22 RPSP New and Expansion Requests (Jan-Mar 2021)
 - Total RPSP Funding Requested: \$55,168,252
 - Main and Branches \$12,382,662
 - HSC:\$42,639,138

**Empowering our
STATE of minds.**

- FY21 RPSP recap
 - FY21: UNM received funding for 59 RPSPs
 - FY21 UNM RPSP total: \$50.2 million
 - FY21 UNM Total I&G: \$316.5 million
 - FY21 UNM RPSP funding = 15.8% of total I&G
- FY22 RPSP request
 - 2 new RPSP requests; 4 expanded RPSP funding requests
 - Total new/expanded funding request: **\$4,179,200**
 - If funded, would result in a total of \$55 million in RPSP funding for FY22

FY22 RPSP New and Expanded Funding Requests

New and Expanded RPSP Requests	FY21 Funding Amount	FY22 Funding Request	New/Expansion Amount
Consolidated College of Education and Human Sciences (UNM UNITED ECHO)	\$ -	\$ 618,312	\$ 618,312
GPSA: Project for New Mexico Graduates of Color	\$ -	\$ 185,850	\$ 185,850

Total Request			\$ 4,179,200
<p>*Expansion Amount Includes \$342,200 expansion and \$1,250,000 which was a special, non-recurring appropriation.</p>			

■ UNM UNITED ECHO

- RPSP Funding Request: **\$618,312.00**
- The mission of the UNM University Network with Integrated Technology for Educational Development (UNITED) Extension for Community Healthcare Outcomes (ECHO) project is to achieve measurable learning improvement for every child of school age in New Mexico.
- The COVID-19 pandemic has exacerbated the disparities that exist for educators and students in rural areas.
- UNM UNITED ECHO will get the right information to the right people at the right time.

UNM Main Campus New RPSP Request Graduate and Professional Student Association (GPSA)

- **Project for New Mexico Graduates of Color (PNMGC)**
 - RPSP Funding Request: **\$185,850.00**
 - PNMGC is a student-led program at UNM that provides peer-mentoring services to all graduate students and directly targets graduate students of color, while also extending its services to undergraduates.
 - PNMGC offers workshops and activities that are coordinated with other student-serving programs, such as the Graduate Resource Center, El Centro de la Raza, and African American Student Services.
 - Peer mentoring is PNMGC's mainstay service, and it is not formally duplicated by any other student resource available to graduate students. The Peer Mentoring Program matches students across disciplines and stated preferences, such as first language, cultural background, first-generation status, gender, sexual orientation, international status, students with disabilities, non-traditional, and academic/research interests to offer sustained peer support for graduate student success that goes beyond academic advising. PNMGC mentors students holistically in a positive manner as they progress and complete their program of study.

- **Department of Athletics**

- Total FY21 RPSP funding: \$3,776,900; Expansion Request: **\$1,000,000** for a total of \$4,776,900 for FY22
- UNM Athletics is requesting a \$1,000,000 increase in State support due to COVID-19 severely restricting the Athletic Department's ability to self-generate revenues.
- The Athletic Department remains committed to providing scholarships for Student-Athletes and meeting their increasing socio-emotional needs in a COVID-19 world.

- **UNM Comprehensive Cancer Center**
 - Total FY21 RPSP: \$5,361,000; Expansion Request: **\$342,200 PLUS \$1,250,000 in nonrecurring funds**--for a total of 6,953,200 for FY22
- **New Mexico Poison and Drug Information Center**
 - FY21 RPSP: \$2,067,900; Expansion Request: **\$244,888** for a total of \$2,312,788 for FY22
- **Office of Medical Investigator**
 - Total FY21 RPSP: \$5,206,900; Expansion Request: **\$537,950** for a total of \$5,744,850 for FY22

UNM Comprehensive Cancer Center Expansion Request

- RPSP Funding Request: **\$342,200 plus \$1,250,000** in nonrecurring funds
- FY22 RPSP expansion funds would support:
 - Recruitment of 6 cancer physicians, 6 cancer scientists, and associated staff
 - Increased support for statewide clinical trials network and community outreach programs
 - Increased investment in education and training programs for workforce development
 - Improve informatics and electronic data systems for clinical care and research (to meet NCI metrics)
- UNM CCC submitted an application of emergency federal funding to the NIH for \$5M, annually, that will be used to build public health infrastructure in Tribal communities to deal with pandemics, such as COVID-19, but also future needs including enhanced cancer screening

NM Poison & Drug Information Center Expansion Request

- RPSP Funding Request: **\$244,888.00**
- The New Mexico Poison Drug and Information Center (NMPDIC) is the state's poison center and is nationally accredited as a regional poison center.
- The RPSP Request will support: Medical Director and Health Educator FTE
 - In FY21, the RPSP funds 64.3% of this state-wide resource
 - Over the last 4 years, the NMPDIC has spent down \$234,000 of its reserves
- COVID-19 response:
 - The NMPDIC has been instrumental in the COVID-19 hotline, fielding over 63,383 calls as of September 8th
 - NMPDIC was the first to detect and report methanol poisoning from hand sanitizer

Office of the Medical Investigator Expansion Request

- RPSP Request: **\$537,950**
- The Office of the Medical Investigator is a state agency administratively housed at the School of Medicine and governed by a Board of Directors that includes the Secretaries of Health and Indian Affairs, the Chief of the State Police, the Dean of the School of Medicine and a representative of the State Board of Thanatopractice.
- OMI's state-mandated mission is to investigate all deaths in the State of New Mexico that meet jurisdictional requirements.
- The Primary goal of the RPSP expansion is to increase staffing levels:
 - OMI is currently operating at a 45% vacancy rate for medical examiners
 - The RPSP funding accounts for 47% of OMI's total operating budget, focused on state-mandated duties
 - Inadequate funding leads to understaffing, which leads to delays in death certification and autopsy reports, both of which have direct financial and emotional impact on NM residents
 - As a result of COVID-19, additional costs include: increased case loads, decedent transportation, and assisting hospitals and funeral homes with body storage during the pandemic

Approval Request: \$4,179,200 for 6 new and expanded RPSPs for FY22

New and Expanded RPSP Requests	FY21 Funding Amount	FY22 Funding Request	New/Expansion Amount

FY22 UNM Research and Public Service Project (RPSP) Requests: New and Expanded

UNM Board of Regents September 10, 2020

(FY21: 59 RPSPs totaling \$51,455,790)

Main Campus (1 new request; 1 expanded request)

1. UNM UNITED ECHO (New Request for FY22: \$618,312.00)

The mission of the UNM University Network with Integrated Technology for Educational Development (UNITED) Extension for Community Healthcare Outcomes (ECHO) project is to achieve measurable learning improvement for every child of school age in New Mexico. UNM UNITED ECHO will build on two innovations to achieve this goal. First, UNM UNITED ECHO will build its programming on the platform as a way of enhancing the coordination, communication, and delivery speed of the professional development and curriculum we will deliver. Second, UNM UNITED ECHO will use latest training innovation in medical education called interprofessional education (IPE) as a pedagogical method for delivery of instruction. The main focus of IPE is that professionals who problem-solve together in the workplace should train together. With our version of IPE, pre-service teachers, in-service educators, educational administrators, and ancillary staff will address and learn from active problems of practice at their workplaces while they interact with a variety of UNM experts.

This pilot UNM UNITED ECHO project will serve 150 participant-educators. They will engage the following topics: educational leadership in a time of change, culturally sustaining, responsive, and relevant pedagogy, diversity counseling in times of stress, equity in special education, and physical activity and learning. A curriculum strand focused on learning technology will cut across each of these topics. After completing a micro-credential, our goal is to package these experiences so the participants can receive entry into a UNM graduate program with one 3-hour course credit. Additionally, we believe that graduates will be high-level school problem solvers. As amplified by the ECHO network, school solutions and techniques they develop can be disseminated across the entire state.

2. Department of Athletics (Total FY21 RPSP funding: \$4,776,900; Expansion Request: \$1,000,000 for a total of \$5,776,900 for FY22)

UNM Athletics is requesting a \$1,000,000 increase in State support due to the Athletic Department's ability to self-generate revenues being severely threatened by COVID-19. The total amount requested by UNM Athletics is \$4,776,900.00. Now more than ever, state and institutional support are vital to the success and sustainability of UNM Athletics. Historically, UNM Athletics has self-generated over 60% of its total revenues on an annual basis. As a result of COVID-19, these self-generated revenues such as ticket sales, sponsorship, fundraising, and NCAA/Mountain West distributions have become incredibly volatile. The FY21 financial picture for UNM Athletics is changing and evolving rapidly as the department navigates the impacts of COVID-19.

As of August 2020, it is unlikely that UNM Athletics will be able to generate its historical annual number of ~\$5,000,000 in ticket sales because of the loss of in-person events. These impacts trickle down to other revenue losses in parking, concessions, merchandise sales, and more. It is also unrealistic to assume that UNM Athletics can fundraise its annual ~\$2,200,000 from donors supporting student-athlete scholarships in a volatile economic climate. Revenues distributed to UNM Athletics by the NCAA and Mountain West Conference such as TV Contract Revenues, College Football Playoff & Bowl Game Revenue, and other distributions are also likely to be significantly impacted to a multi-million-dollar tune. Sponsorship and implementation sold at UNM Athletic events will also be significantly reduced because of the loss of fans in attendance. Declining enrollment and the associated cut in student fees will, too, adversely affect the department budget. As a result of other athletic conference decisions, UNM Athletics will also lose \$1,950,000 from Football "guarantee games" with Power 5 opponents. In a worst-case scenario, UNM Athletics revenues could be negatively impacted to the degree of eight-figures or over (\$10,000,000), nearly one-third of the total budget.

Therefore, support from the University and the State of New Mexico is more vital than ever to UNM Athletics and its mission. While sports contests have been delayed to the Winter of 2020 at the earliest, UNM Athletics is still responsible for honoring the commitments it has made to over 400 student-athletes and 100 staff members who call the state of New Mexico home. UNM Athletics will honor all scholarships previously committed to student-athletes who chose to come to New Mexico to be "Lobos" during the 2020-21 academic year. This commitment is not only a national expectation set forth by the NCAA, but also the right thing to do. While some expense lines such as team travel and recruitment may offset some revenue losses, it is premature to consider these costs totally avoided. If athletic seasons resume in the

Winter and Spring, Athletics will have a need to fund the associated travel costs with sponsoring an NCAA Division 1 Intercollegiate Athletic program.

HSC (3 expanded requests)

1. UNM Comprehensive Cancer Center (Total FY21 RPSP: \$5,361,000; Expansion Request: \$342,200 PLUS \$1,250,000 in nonrecurring funds--for a total of 6,953,200 for FY22)

The UNMCCC continues to be negatively impacted by the decision of the federal Centers for Medicare and Medicaid (CMS) to enact a 28% revenue reduction to cancer centers and hospitals nationwide who participate in the Congressionally-mandated 340b drug purchasing program. This program has been a lifeline for Cancer Centers like UNMCCC which serve minority and vulnerable populations, as it allowed UNMCCC to purchase life-saving cancer drugs for such minority, underserved, and vulnerable patients at a 30% discount. This action has resulted in a clinical revenue loss to the UNMCCC of over \$11 million annually. The UNMCCC also provides a high level of uncompensated care to uninsured New Mexicans, which now exceeds \$9.5 million annually. Together, the impact of these two challenges has very negatively impacted UNMCCC revenues by an annual reduction of \$20.5 million, eliminating any net margin for continued investment in physicians, scientists and programs to meet new and more rigorous federal NCI requirements and New Mexico cancer patient needs. Of significant concern, CMS has notified providers that it intends to increase this reimbursement reduction by an additional 8% (effective January 1, 2021), which will result in an additional \$2.5 million reduction in UNMCCC revenues annually in FY21-22. If unmitigated, this action effectively wipes out the increase that the State provided in an RPSP expansion to the UNMCCC for FY21 and further impacts the Center's ability to sustain faculty and programs that meet patient needs. UNMCCC is very appreciative of the \$2.25 million expansion it received in its FY21 RPSP, leading to a total in RPSP funding of \$5,703,200. The UNMCCC has also received non-recurring funds of an additional \$1.25 million each year for FY20 and FY21. With the State's budgetary challenges, the UNMCCC RPSP was shaved 6% (\$342,200) in the recent Special Session. With recognition and respect for the State's budgetary challenges, the UNMCCC is requesting for FY22 to sustain our originally approved RPSP expansion at \$5,703,200 in annual recurring funding and, to also receive \$1.25 million in non-recurring funding which is so critical for start-up funding for cancer physician recruitment and infrastructure investment.

Maintaining these levels of recurring State support are essential to assure the success of the Center's NCI renewal application, which assures continued NCI designation and federal matching funding (which now totals \$54 million annually). The UNMCCC is submitting its federal renewal application on September 24, 2020 and it will undergo federal review in a Site Visit to New Mexico in February 2021. One of the key evaluation metrics used by the NCI in their evaluation process is the level of state and institutional commitment to an NCI-Designated Cancer Center. Since 2015, annual recurring state support for NCI-Designated Cancer Centers has continued to increase around the country (examples include: \$11 million annually for University of Oklahoma Stephenson Cancer Center; \$13 million annually for University of Hawaii Cancer Center; \$36 million annually for the University of Miami Sylvester Cancer Center;

and \$46 million annually for UT-Southwestern Cancer Center in Dallas). With this FY22 RPSP request, the UNMCCC seeks to maintain recurring support of \$5,703,200. This continued RPSP support, along with other State support (\$3,038,740 annually through 2025 from the State Excise Tax on Cigarettes) would provide a total level of recurring funding from the State of New Mexico to the UNMCCC of \$8,741,940. While the UNMCCC is tremendously appreciative of this level of state support, it is one of the lowest levels in the nation of state support for an NCI-Designated Cancer Center.

2. New Mexico Poison and Drug Information Center (FY21 RPSP: \$2,067,900; Expansion Request: \$244,888 for a total of \$2,312,788 for FY22)

The New Mexico Poison Drug and Information Center (NMPDIC) is the state's poison center and is accredited as a regional poison center. It is located within the UNM College of Pharmacy and has operated as a part of the College for more than 40 years, serving all citizens of the state, 24 hours a day, 7 days a week. Prior to commencing its COVID work, the NMPDIC served approximately 25,000 people per year. It has experienced such severe budget cuts over time that we are now in the terminal phase of exhausting reserve funds. The State of New Mexico's Tobacco Settlement fund, which is a source of revenue for the NMPDIC, has provided reduced revenue at the same time the State has initiated budget cuts to the RPSP. The RPSP funding is the primary source of funding for the NMPDIC.

In order to meet budget needs, we have utilized reserves from other parts of UNM (School of Medicine, College of Pharmacy and the Office of the Chancellor), in addition to the NMPDIC reserves to enable continuity in services. NMPDIC was projected to use \$368,049 in reserves over the past 5 years (FY16 – FY20). Those reserves are a combination of funds held by the NMPDIC and the College of Pharmacy that we use to pay for personnel that should be on the Poison Center payroll. Fortunately, the Center received a \$134,300 DOH contract to run a COVID hotline in the latter half of FY20. With that contract, the Poison Center was able to save that same amount of money, leaving approximately \$134,000 remaining in reserves. While the DOH contract was helpful to the NMPDIC finances, it is not a source of sustainable funding in the long-term and is only for COVID-specific purposes. We anticipate the remainder of the reserves will be depleted by the end of FY21.

In addition, the NMPDIC has had two significant impacts related to the COVID pandemic. The Center stood up a COVID hotline along with NM Department of Health, which is largely staffed by NMPDIC staff, along with students and volunteers. These efforts have been partly, but not completely, covered by DOH contracts and the federal CARES Act Staff are all working overtime to accomplish this mission. In addition, the Southwest is in midst of a two-state epidemic of poisonings related to hand sanitizer contaminated with methanol, where New Mexico has had the bulk of cases. Addressing these cases takes much more time than routine calls due to the severity and complexity of the poisonings. The NMPDIC is a statewide resource for the people of New Mexico

and needs sustainable funding for its 365 days-a-year/7 days-a-week/24 hours-a-day mission. The importance of the Center has only been intensified during the COVID-19 pandemic and with a commitment from the State, it will be here to meet new and existing challenges for years to come.

3. Office of Medical Investigator (Total FY21 RPSP: \$5,206,900; Expansion Request: \$537,950 for a total of \$5,744,850 for FY22)

The Office of the Medical Investigator is a state agency administratively housed at the School of Medicine and governed by a Board of Directors that includes the Secretaries of Health and Indian Affairs, the Chief of the State Police, the Dean of the School of Medicine and a representative of the State Board of Thanopractice (funeral homes). Its state-mandated mission is to investigate all deaths in the State of New Mexico that meet jurisdictional requirements. The RPSP funding accounts for 47% of OMI's total operating budget, focused on state-mandated duties. In addition, the OMI has incurred increased operating expenses due to COVID which we anticipate will not be reimbursed fully. OMI has also experienced a significant workload increase without additional pathologist positions. Compared to past years' activity, the OMI is currently 2,000 cases ahead of where they were at the end of July 2015, and 607 cases ahead of where they were this time last year.

Inadequate funding leads to understaffing, which leads to delays in death certification and autopsy reports, both of which have direct financial and emotional impact on NM residents. These delays can also postpone trials, which impede the defendant's right to an expedient trial. OMI currently holds an overall 45% personnel vacancy rate. In addition, it is difficult for OMI to retain locums. For this reason, staffing is the top priority for OMI. Understaffing leads to increased overtime staff compensation as well as increased turnover. The severe lack of staffing further contributes to workforce burnout. OMI's two private sources of revenue are cremation permits and consultations, and this makes up a small portion of the overall operating budget.

The OMI plays a significant role in training forensic pathologists. With four forensic pathologist fellowship positions, OMI has one of the largest forensic training programs in the country (30-35 of our fellows sit for the forensic boards yearly). There are currently approximately 500 practicing forensic pathologists in the United States, and OMI has graduated 100 of them. In the face of a significant forensic pathologist shortage (the United States needs 1,200 forensic pathologists), the OMI consistently trains and sends helpful numbers of forensic pathologists into the workforce. Additionally, the OMI trains pathology residents in their autopsy rotation, some of whom choose UNM due to their interest in forensics. Lastly, the OMI faculty play an important role in medical student education and in other UNM program education.

Budget deficits have both direct and indirect effects on OMI's ability to teach and train UNM students and training physicians.

Table 1: All new and expanded FY22 RPSP Budget Requests:

New and Expanded RPSP Requests	FY21 Funding Amount	FY22 Funding Request	New/Expansion Amount
Consolidated College of Education and Human Sciences	\$ -	\$ 600,000	\$ 618,312
Department of Athletics	\$ 3,776,900	\$ 4,776,900	\$ 1,000,000
UNM Comprehensive Cancer Center*	\$ 5,361,000	\$ 6,953,200	\$ 1,592,200
NM Poison and Drug Information Center	\$ 2,067,900	\$ 2,312,788	\$ 244,888
Office of Medical Investigator	\$ 5,206,900	\$ 5,744,850	\$ 537,950
Total Request			\$3,993,450

*Expansion Amount Includes \$342,200 expansion and \$1,250,000 which was a special, non-recurring appropriation.

Integrated Financial Statements	4-7
UNMH Balance Sheet	8
Metrics	9-12
Integrated Financial Statements – Glossary of Report Terms	13-15

UNM Health Sciences Center

Executive Summary - GASB FORMAT

The following financial statements for the UNM Health Sciences Center are presented in accordance with the GASB financial reporting model. The Statements of Revenues, Expenses and Changes in Net Position are presented for four (4) entities: UNM HSC Academic Enterprise, UNM Hospitals, UNM Medical Group and Sandoval Regional Medical Center. The Consolidated UNM Health Sciences Center net margin for FY 2020 is \$36.0M.

UNM HSC Academic Enterprise

The net margin is \$20.3M for FY 2020 and is primarily due to the School of Medicine receiving increased collections from enhanced Medicaid rates in combination with operational efficiencies in the Internal Medicine and Surgery Departments in FY 2020.

UNM Health Sciences Center

Executive Summary - GASB FORMAT

UNM Hospitals

UNM Hospitals net margin through June FY20 is \$97.9M, of which \$24.3M is available for operations. During FY20, the Hospitals received \$33.6M in capital appropriations which have been set aside as restricted for capital assets. An additional \$40M has been set aside by management for capital assets.

Inpatient activity was strong during the month of June with an adult average daily census of 342, which is the highest level of activity over the past 18 months. The Hospital also recognized a directed payment from the NM **Human Services** Department and a better than expected Indirect Medical Education payment which had a combined net impact of \$26M on the net margin. Outpatient activity continues to increase but has not yet returned to pre-pandemic levels.

UNM Health Sciences Center

Executive Summary - GASB FORMAT cont...

UNM Medical Group

The net margin as of June 30, 2020 is \$(9.0M). This negative net margin is primarily due to a timing issue with the Medicaid Upper Payment Limit revenue that was recognized in FY19, but was being spent in the current year.

Sandoval Regional Medical Center

The FY20 net margin was \$298K. Net patient revenue was below budget due to the COVID-19 impact. The Medical Center's positive margin is attributed to recognizing a portion of CARES Act funds in FY20, Mill Levy revenue and strategic initiatives to contain expenses.
