Faculty Compensation Analysis and Policy Development
• Leading an analysis of internal equity and external competitiveness of base salaries of Main campuses faculty; leading concurrent review of compensation policies to ensure UNM effectively incentivizes, recognizes and rewards work aligned with mission and strategic plan; supports effective faculty recruitment and retention; and provides comparable pay for comparable work. These initiatives underpin one of Academic Affair’s highest priorities—working with university leadership to address faculty salary compression problems contributed to by shrinking state appropriations (2015-present)

Higher Learning Commission (HLC) Accreditation Reaffirmation Steering Committee
• Assisting with preparations for reaffirmation in 2018-2019; currently reviewing operational practices to ensure documentation of faculty credentials is compliant with recent revisions to Assumed Practice B.2., Faculty Roles and Qualifications; assisting with oversight of student complaints data collection and analysis for Assumed Practice A.4., Ethical and Responsible Conduct (2015-present)
Senior Vice Provost: Strategic Initiatives

Innovation Academy Planning Group

- Led a faculty and business community collaboration to design and implement Innovation Academy—the academic arm of InnovateABQ; effort resulted in creation of distinctive co-curricular components and an interdisciplinary degree program to foster skills needed for success in the workforce and in entrepreneurism. Outcomes included repurposing an existing interdisciplinary baccalaureate degree program as a vehicle for an Innovation concentration; recruitment of faculty to pilot new courses and adapt existing courses; building new connections between faculty and local business and entrepreneur communities; and hiring inaugural director (2014-2015)

KUNM and KNME Studio Merger Project

- Leading efforts of journalism faculty members, and public television and radio station managers, to develop a strategic plan for enhancing student experiential learning opportunities through collaboration with UNM’s public radio and television outlets; related efforts include oversight of strategic planning to move radio station to television station location and expand studio classrooms (2015-present)

Office of Faculty Affairs and Services
Strategic Initiatives

Academic Personnel Process Improvements
• Restructured to reduce administrative burden and increase efficiencies in processing faculty hiring; resulted in elimination of several steps in the hiring process while still ensuring policy and regulatory compliance; automated several faculty compensation procedures including transition to electronic faculty contract renewals and creation of online portal for faculty to verify current appointment status and compensation data on demand (2013-2015)

Faculty Compensation Analysis
• Conducted analysis of Main Campus faculty base salaries based on rank and discipline, compared with those of 76 other public research universities, as reported in the College and University Professional Association for Human Resources (CUPA) annual salary survey (2015-2016)

Applicant Tracking and Employee Onboarding System
• Actively involved in multi-year, enterprise-wide effort to design and implement new applicant tracking software (UNMJobs). System will serve as database of record for affirmative action recruitment reporting, and manage applications and search committee work; and will allow for full automation of the faculty hiring process including electronic faculty offer letters, contracting and onboarding (2015-present)

Strategic Initiatives
• Future initiatives include reconciliation of Main, Branch faculty personnel process and data collection standards with those of the HSC Faculty Contracts Offices to improve enterprise-level data collection and reporting capacity

- Through involvement with HACU (Hispanic Association of College Universities) VP Torres was invited with most expenses paid to two universities in Costa Rica interested in sending students to UNM; there has been recruitment coordination with the Global Education Office. Also, presentations on UNM’s programs have been done at the HACU national and international conference.

- Continue to develop and implement programs and initiatives on campus-wide sexual assault, safety awareness, education, training, and emergency preparedness through the LoboRESPECT initiatives.
- Evaluate and expand evening and weekend campus student activities and events to increase student engagement and extracurricular participation.
- Create relationships and opportunities for fundraising and development in the Division by collaborating with the Foundation/Development office to solicit steward donors and prospects for new revenue streams.
**Student Affairs Capital Projects Goals & Initiatives**

Every Student Affairs department manages and monitors a budget. Almost $30 million in revenue was generated in 2015-2016. There are numerous funding sources. 38% of the revenue is self-generated (other); 29% is through student fees; 25% from I&G; 6% from special legislative initiatives (RPSP) and 1% for contracts and grants and scholarships. Division for Equity and Inclusion

*Promoting Inclusive Excellence*

Jozí De Leon, Ph.D.
Vice President, Equity and Inclusion

August 26, 2016
Projected demographics, emerging economic imperatives, and increasingly turbulent political and legal challenges have converged to an extent that inclusion and diversity will be among the most critical issues facing higher education in the twenty-first century (Duderstadt 2000; Hurtado and Dey 1997; Tierney 1999).
MISSION STATEMENT

The Division for Equity and Inclusion promotes equity for all members of the University community by leading efforts and building sustainable partnerships to transform the campus environment, in addition to fostering inclusive excellence, promoting equity, and advocating social justice; and, in this way, nurture a climate that imbues diversity as an asset.
VISION

Since the University of New Mexico looks today, like most universities will look tomorrow, UNM will become a model for diversity and inclusive excellence.
Inclusive Excellence

- Inclusive Excellence (IE) means that “diversity is a key component of a comprehensive strategy for achieving institutional excellence”
- Goes beyond numbers of diverse students, faculty, staff or number of programs as end goals.
- Eliminates “islands of innovation” and attempts to create a collaborative, cohesive strategy to bring efforts together to address institutional goals
Three Pillars

• The Division for Equity and Inclusion (DEI) leads inclusive excellence initiatives through education and dialogue and strategic engagements and sustainable collaborations. DEI identifies university and community partners that are involved in complementary efforts to minimize duplication and strengthen initiatives to promote a healthy and inclusive campus climate, advance the academic enterprise and increase the success of our students at UNM.

<td><strong>Purpose:</strong> To create an environment that promotes the nurturing and growth of every individual on campus, where individuals are valued and treated with respect and civility, and where hate and bias toward any group is not tolerated.</td>
<td><strong>Purpose:</strong> To support the academic mission of the university by working with faculty and staff to incorporate diversity in our curricular and co-curricular activities. We strive to diversify our faculty because we know that they enhance excellence in our teaching, research and service. We also work with all faculty to engage them in understanding and working with our diverse students and our diverse communities.</td>
<td><strong>Purpose:</strong> To work with others to ensure that our students are prepared for success when they enter our university. To provide students transferring from two-year institutions a connection with the university and to ensure they integrate well into our university community. To work with entities to ensure that students get connected to the appropriate support programs they need.</td>

UNM-Taos Campus Highlights

Background
UNM-Taos is one of UNM’s four branch community colleges, offering associate degrees, one- and two-year certificates, dual-enrollment courses, adult basic education, high school equivalency, workforce training and personal enrichment courses.

The campus is a rural, two-year, Hispanic Serving Institution located in the north-central region of New Mexico at the foot of the Sangre de Cristo Mountains. As the only institution of higher learning within a 50-mile radius, the UNM-Taos branch campus serves students from northern New Mexico, including the counties of Taos, Rio Arriba and Colfax, and the Pueblos of Taos and Picuris.

Organizational Structure

Mission
To provide quality educational opportunities that transform the lives of our students, enrich the cultural life of our diverse communities, and strengthen the regional economy.

Vision
To be recognized in New Mexico and regionally as an educational leader and partner committed to providing a high-quality learning environment for all students, pathways to higher education, relevant, rewarding careers, and personal growth opportunities.

Strategic Priorities and Challenges

In August 2014, UNM-Taos implemented a five-year strategic plan, which identified seven campus priorities.

In the two years since implementing the Strategic Plan 2014-2019, UNM-Taos has made considerable progress in many of the seven aforementioned priorities.

However, the campus has experienced significant challenges as well, including student retention and persistence; graduation rate (150% of time); and the ongoing revisions to the funding formula, which impact the ability for predictable and stable budget planning.

Strategic Plan Goals 2014-2019

• Increase student services to support student retention and graduation.
  Provide meaningful pathways, dual enrollment, and early college initiatives.

• Improve and maintain campus safety and security.

• Expand effective communication among all stakeholders.

• Focus on facilities planning and the evolving needs of the campus community.

• Provide fiscal stability and promote excellent human resources.

• Promote Institutional Effectiveness through data-driven decision making and thoughtful assessment of outcomes.

http://taos.unm.edu/home/about/strategic-plan-2019/
UNM-Taos operates a variety of grants and contracts which account for **34% of the operating budget**.
The aggregate value of these grants and contracts is **$3.4 million**.
As a historic HSI, UNM-Taos is eligible for, and has received, funding to build capacity and improve services to first-generation, low-income, non-traditional, and minority students.

**UNM-Taos has experienced unprecedented growth, with a 20% increase in head count in the last five years.**
In 2013, the campus was designated as the 17th fastest growing community colleges of its size (under 2,500 enrollment) in the nation by Community College Week.

Representative of the community which it serves, UNM-Taos enrolls an average of **60% Hispanic and 7% Native American students**.
UNM-Taos collaborates with **nine area high schools** for its **Dual Enrollment Program**.
In the past two years, seven dual-enrollment students completed an **associate degree** by the time they graduated high school.
UNM-Taos is home to a **nationally-accredited Nursing Program**. Since its inception, there has been a 100% pass rate on NCLEX for all nursing cohorts to date.
In Spring of 2016, the UNM-Taos Center for Academic Success and Achievement (CASA) was one of twelve high-impact programs featured in From Funding to Practice: A Status Report on Federal Funding and High Impact Programs Among Hispanic Serving Institutions, a publication produced by the Alliance of HSI Educators (AHSIE), as part of the White House Initiative on Educational Excellence for Hispanics.

Tuition Share Budget Model

- New internal budget model that allocates tuition revenue to the generating academic unit based on:
  - Student Credit Hours
  - Majors

- **Purpose:** is to align resources with productivity, while ensuring quality through compact agreements with deans. Compact agreements will be used to allocate state funding to units based on service goals and quality metrics

- Tuition Share Budget Model base year is FY17:

Academic Forecasting Tool and Reports

• Application that uses multiple sources of data, which include student enrollment, course offerings, human resource, and financial data collectively to develop strategic forecasts for academic units

• **Purpose:**
  – Help academic units understand the relationship between how course offerings and enrollments generate tuition revenues, and how faculty workload and other instructional costs associated with course offerings convert to expenses
  – Help a unit develop a plan to meet a particular budget target, and inform a unit on whether or not that unit is a revenue generator or cross-subsidized by other academic units and/or revenue sources.

• Forecasts developed in the Academic Forecasting Tool will be monitored against live data, so intervention can take place if a unit begins to deviate from their plan

• **Goal:** Align the final phase of the tool and reports with the new Tuition Share Budget Model
Financial Officer

Strategic Initiatives

Hiring Review Process (HRP)

• Work with the Chief of Staff in the Provost Office and Human Resources to review all requests to post staff positions from units residing under Academic Affairs

• **Purpose:** is to validate the appropriateness of the position level requested, budget availability, opportunities for position consolidations, structure changes that could lead to cost savings and/or efficiencies, and options for promotional opportunities with current staff in the unit

• HRP began in October 2015, which has resulted in the following:
  – 20 positions have been eliminated
  – **$802,460 total recurring savings**
