

UNM & Microsoft Vista Compatibility Matrix Information

Microsoft proceeded with its plan to phase out Windows XP as of June 30, 2008. Therefore new hardware purchases specifying a Microsoft Windows Operating System (OS) will be delivered with Microsoft Vista. MS Vista is not compatible with some of the broadly-used applications here at UNM. Please refer to the MS Vista Compatibility matrix below to verify whether the applications you & your department use are vendor-certified Vista compatible.

If you use an application tool that is not certified compatible along with a Microsoft Operating System, ITS recommends that you remain with your current OS. Both Microsoft & Dell have options to purchase XP until further notice. Furthermore, Microsoft will continue to offer Extended Support for XP until April, 2014.

Options for purchasing new hardware without Microsoft Vista:

1. Dell offers a “Vista Bonus” option allowing you to purchase XP as the operating system with an option to upgrade to Vista at any time without further cost.
2. Microsoft offers “downgrade rights” to Windows XP Professional when you purchase either Windows Vista Business or Windows Vista Ultimate.

Microsoft Vista Application Compatibility					
Product	Vendor / Support Provider	Current UNM Version	Version Required for Vista	UNM Vista Compatible ?	Comments
Ad-Aware	Lavasoft	Varies	See notes	See Notes	Enterprise 2.0 is Vista compatible only for 32-bit 2008 Pro, Plus & Free are compatible for 32- & 64-bit
Adobe Acrobat Reader	Adobe	Varies	8	See Notes	Compatible if using v.8
Adobe Dreamweaver 8	Adobe	Varies	MX	See Notes	Compatible if using v.MX
Advance	SungardHE	9.1.2	N/A	Yes	Only contingent on IE 7.0, not operating system
AppWorx	UC4	6.1	N/A	N/A	Requires either Java 1.4 or 1.5; not contingent on OS per AppWorx support
AppXtender Desktop	SungardHE	5.3 SP2	5.4 SP1	No	
Banner INB	SungardHE	7.x	7.x	Yes	Requires Sun Java Plug-In, *not* J-Initiator
Banner Self-Service	SungardHE	7.x	7.x	Yes	
Banner Workflow	SungardHE	N/A	N/A	N/A	Only contingent on IE 6.0 or higher, not operating system
Cisco VPN	Cisco	Cisco 3000 VPN Concentrator	See Notes	See Notes	Only supported if Vista is a clean install, not an upgrade. Additionally, 64-bit Vista is only supported w/ "AnyConnect" product which UNM doesn't have [AnyConnect requires Cisco Adaptive Security Appliance that runs v.8.0(2) or later]. 64-bit also requires Cisco VPN server software v.8. Two of UNM's three VPN servers cannot be upgraded to v.8, so the upgrade will require new hardware as well as new software including the Adaptive Security Appliance.
Citrix VPN	Citrix	4.2.3 (build 87)	See Notes	See Notes	Citrix XenApp product removes application compatibility as a barrier if it becomes issue for user.
DARS	Red Lantern	See Notes	See Notes	No	The underlying tool for the DARs server, PowerBuilder is dependent on the OS. The current version of PowerBuilder 9.0.3 doesn't support 64-bit, but the future v.10.5 or v.11 will. However DARSweb is written in Java & therefore should work on any OS using Java.
eHire	UNM	Custom	N/A	Yes	Retiring Nov '08, replacement is PeopleAdmin
eJobs	UNM	Custom	N/A	Yes	Retiring Nov '08, replacement is PeopleAdmin
ePrint	SungardHE (LeadTools)	3.2-2	5	No	Planning redhat v.5 upgrade, dates TBD
