

This portion of the conference will exercise the ability of the engineering students to think on their feet, work under pressure, and produce a useable product in a short period of time. The actual competition will be revealed to participants at the conference just prior to this event beginning. An example of this event from previous years is the challenge of constructing a structure made of uncooked spaghetti noodles and marshmallows.

Team size: no more than 3 people per team.

Location: Stamm Commons, Centennial Engineering building, UNM Campus.

Date and Time: afternoon of Friday, April 10th. See our website for schedule:

<http://www.unm.edu/~asce/rockymountain.htm>

Maximum points that can be earned in this event: 50 points.

Total points possible in conference: 1000.
