Non-technical Paper

As clarification, the non-technical paper will be based on the same topic as the Daniel W. Mead paper. This topic is:

"Should the Engineer of Record (who has sealed a set of plans) be held responsible, to any degree, for injury or death to builders or bystanders that occurs during the construction of his/her design?"

The non-technical paper should be submitted to UNM one month prior to the conference along with the Canoe papers. A deadline has not yet been set but will be set by the second mailer. These papers can be submitted to ASCE-UNM via email to asce.unm@gmail.com.

* IMPORTANT REMINDER: In order to qualify for the National ASCE Daniel W. Mead competition, a separate competition from the Rocky Mountain Regional Conference, schools are encouraged to submit their Daniel W. Mead papers by March 1st. This competition is separate from the Non-Technical Paper competition being conducted at the 2015 Rocky Mountain Regional Conference in New Mexico. All information about this can be found at:
