

College of Arts & Sciences

Linguistics, PhD

Broad Learning Goals

- A. In-Depth Knowledge
- B. Original Research

Student Learning Outcomes

- A1. Students will be familiar with the basic literature and current theories for the empirical phenomena in the subarea of linguistics chosen for doctoral research.
- A2. Students will be able to critically compare and evaluate theories and bring relevant data to bear on those theories in the subarea of linguistics chosen for doctoral research.
- B1. Students will be able to pose an original research problem in their chosen subarea.
- B2. Students will be able to collect and assemble a novel set of data relevant to solving research problem.
- B3. Students will demonstrate competency in the use of ethical guidelines for research with human subjects as outlined by the university IRB.
- B4. Students will be able to produce a publishable research paper or monograph on a scientific problem.
