Annual Program Report Narrative

Academic year: 2007-08

Department/Program: **Special Education**

Degree program(s): **Certificate in Intensive Social, Language, and Behavioral Needs**

Person(s) preparing report: Liz Keefe

Date submitted: 11/4/08

1. List the student learning outcomes (SLOs) that were assessed during the academic year, including those for which data were gathered as well as those for which developmental work was done, such as the creation or piloting of assessment measures.

The ISLB Certificate just started accepting students for the 2008-09 year so has no assessment results for 2007-08.

2. For each learning outcome, describe a) the measures used (at least one-half of the measures used are to be direct measures, and at least one direct measure must be used for each SLO), b) the sample of students from whom data were collected, c) the timetable for the collection, and d) the setting in which the measures were administered.

The ISLB Certificate just started accepting students for the 2008-09 year so has no assessment results for 2007-08.

3. Describe the results of the assessment. (What do they tell you about student learning? What did you learn about strengths and weaknesses of your program?) If specific results are not available, describe the progress that has been made on the initiatives included in the approved assessment plan.

The ISLB Certificate just started accepting students for the 2008-09 year so has no assessment results for 2007-08.

4. Describe the departmental process by which faculty reviewed the assessment procedures and results and decided on the actions and/or revisions that were indicated by them.

The CARC develops systems to document assessment to ensure consistency in reporting across the COE. Assessment data are entered into the COEAS by program coordinators. This system generates reports by semester and type of assessment. Program coordinators share these data with their program faculty. Program faculty then discuss the results of the assessments and how they inform faculty about their students' learning. Faculty also examine what the results indicate about the effectiveness of the program overall. Finally the faculty consider whether the assessment method does accurately and effectively evaluate SLOs and program goals. Changes in program procedures, instruction, and assessment may result from a discussion of results. Programs report and discuss results of their assessments at Department Meetings. Department Chairs then share the results of assessment at the College level. The CARC meets regularly to examine college-wide assessment procedures. The chair of CARC and the Associate Dean in charge of assessment meet with Departments and programs to help evaluate and develop ongoing assessment systems that are manageable, effective, and meaningful.

5. Describe the actions and/or revisions that were implemented in response to the assessment processes and results.

See attached assessment grid for proposed assessments.

6. Given the assessment activities and results to date, describe your assessment plans for the next year (2008-09). If significant changes have been made to degree program SLOs or to the general assessment strategy, please clearly describe. (Remember that half of all assessment measures must be direct measures of student learning (see link in #2 above).)

Faculty will begin collecting data on this certificate program in 2008-09.

* COE Conceptual Framework for Student Learning Outcomes: U – Understandings, P – Practices, I – Identities

* University of New Mexico Student Learning Goals: K – Knowledge, S – Skills, R – Responsibilities

Each element within the COE conceptual framework (U, P, I) aligns with the corresponding UNM student learning goal (K,S,R)

Three-year Plan – Program will continue to add (or select) a minimum of one *priority* learning goal and two associated student learning objectives each Fall semester that will be assessed in the corresponding academic year. The SLO’s will be assessed for ALL students in the program and data from the assessments entered into the electronic COE Assessment System for both Fall and Spring semesters. Program coordinators will share these data with their program faculty and faculty will discuss the results of the assessments. Finally, the faculty will consider whether the assessment methods have accurately and effectively evaluated the priority SLOs and program goals. Changes in program procedures, instruction, and assessment may result from a discussion of results. An “Annual Program Report” on the findings and discussions of faculty will be submitted by the program to the Department Chair each year.

****PIP (Points in Program)**, – The College of Education, as part of the NCATE accreditation process, developed a “Points in Program - PIP” gateway assessment procedure for tracking students progress through the program. This tracking system has been adopted by all programs across the COE. In this system, student learning objectives are assessed at PIPS 2,3, & 4. The PIP system is described below.

PIP 1 – Admission requirements

PIP 2 – Assessments that occur during program coursework

PIP 3 – Assessments directly related to Field Experiences (student teaching, internships, etc)

PIP 4 – Program Exit assessments (licensure exams, final projects, comprehensive exams, theses/dissertation defenses, etc)
