

School of Engineering Computer Science, PhD

Broad Learning Goals

Graduates will successfully advance in their careers through:

- A. Technical competence in their area of specialization
- B. Demonstration of research skills appropriate for an industrial or academic institution.
- C. An ability to communicate research results in appropriate forums.

Student Learning Outcomes

Students receiving the PhD in Computer Science will:

- 1. Exhibit knowledge of computer science fundamentals appropriate for the discipline and/or specialization.
- 2. Demonstrate a depth of knowledge in the specialization.
- 3. Have the ability to conduct independent and original research.
- 4. Have demonstrated the ability to perform a critical review of the literature in the area of specialization.
- 5. Be able to communicate effectively.
