

INTELLECTUAL PROPERTY RIGHTS INFORMATION QUESTIONNAIRE

A. Each Author's or Inventor's name, home address, and organization at UNM.

B. Title of work of authorship ("Work") or invention.

C. Brief description of the work or invention and major fields of use of the Work or invention.

1. Has the Work or invention previously been reported to the University? ("Yes" or "No") If "Yes," give date \_\_\_\_\_.

D. Contributions. Please provide approximate figures for funds and hours and identify the facilities used in the table below as indicated. You may add pages as needed. (Note: "Facilities" means University space, equipment, or material; "Hours" means time spent by author or inventor and/or others including University faculty, staff, students, fellows, assistants, etc.; "Funds" means any monies or financial credits furnished by a sponsor or UNM; "Conception" means the act of thinking through the what and how of the invention and reducing it to a writing or sketch on any media or memory; "First successful test" means first actual reduction to practice--the first successful demonstration or test of invention's operability in its intended environment.)

CONTRIBUTING SOURCE

	UNM	PRIVATE	OTHER (e.g., gov't.)
Conception:	Funds	_____	
	Hours	_____	
	Facilities	_____	

	UNM	PRIVATE	OTHER (e.g., gov't.)
First successful test:	Funds	_____	
	Hours	_____	
	Facilities	_____	

Explanation of the nature and circumstances of the above contributions. If "other" is indicated, please identify the source and briefly explain.

E. Relationship of Work or invention to duties.

1. Describe your official duties at UNM at the time you completed the Work or at the time the invention was conceived and/or first successfully tested. (Please attach written position description or other document describing your duties, if available.)

2. Please complete whichever is applicable:

a) Brief description of the facts and circumstances under which you created the Work and relationship thereof to your duties.

b) Brief description of the facts and circumstances under which the invention was conceived and first successfully tested and relationship thereof, to your duties.

3. Statement of your beliefs as to any other factors, equities, or circumstances you consider relevant to this matter.

F. Signature: To the best of my knowledge, the above statements are accurate and true.
