# NEW MEXICO'S UNIVERSITIES 2000 SURVEY OF ALUMNI ASSESSMENT OF UNDERGRADUATE EDUCATIONAL PREPARATION

Alumni are a critical source of evaluative information on the quality of a university's academic programs and support services for students. Alumni can offer their perceptions of the quality of the programs and services in place while they were at the university. Alumni also have the advantage of knowing now what would have been useful university preparation for their current employment or educational pursuits. During the 1999-2000 academic year, New Mexico's six universities surveyed alumni who were in the graduating class of 1995-96. At the time they received the survey, these alumni had been employed and/or enrolled in further education for three years. The universities developed a common set of questions to be asked of all alumni surveyed in order to have comparable information relating to their alumni's satisfaction with their undergraduate educational preparation.

The alumni survey provided feedback to each university on what its alumni are doing three years after receiving their baccalaureate degrees. This information on alumni employment and further education contributes to a more complete picture of our students' progress and success. Each university has provided the placement data on its alumni. Also included with the data for each institution in this PEP report is a summary of alumni responses regarding their satisfaction with their undergraduate curriculum and instruction, academic support available to them, and their overall assessment of how well their undergraduate programs developed their skills and prepared them for work and further education. The specific set of questions asked in this alumni survey is provided below. Anyone seeking additional information related to the results of these alumni surveys is encouraged to contact the specific university for a complete report.
