New Navigation requirements for Banner 8

Banner forms FGIBDST and FGIBAVL now require you to tab through the fields in order to validate the Fund, Org, Program, and Activity (FOPA).

Make sure the Chart is “U”, then Tab
Enter the Fiscal Year, then Tab
Enter the Index, then Tab. This will populate the FOPA elements associated with the Index.

If you do not tab through the form you may get this error: ‘User must have master org capabilities to have Organization Null’

Perform a next block.

If you get the error: ‘User must have Organization Capabilities to have Organization null’, and you need access to this organization, you will need to submit a BAR requesting access to the Org associated with your Index.
