YEAR END CLOSE – DIFFERENT FROM MONTH END CLOSE

Every month UNM closes the accounting books. How is our year end close different from a month end close?

At each month end, our goal is to provide departments with financial information for general business operations. The Operating Ledger is our primary focus.

At year end, our goal is to provide all relevant parties with accurate income, expense, and General Ledger information, so they can see how UNM performed over the preceding 12 months. We focus on both the Operating and General Ledgers. The goals of year end lead to an increased level of exactness in our financial records by ensuring proper cutoff of transactions. To obtain these results, we must perform additional tasks.

- Accurate Recording in the financial system of items owned or owed as of June 30th.
 - *Accrual Entries* – These are entries that record current year activity that has not been formalized with actual payment or revenue receipt. These entries record such things as large payments owed to vendors at year end, and revenue owed to us but not yet paid.
 - *Completion of invoices associated with Purchase orders*, including bid completion where new purchase requisition is greater than \$20,000.
 - *Completion of invoices (DPIs)*, so expenses are complete for the year.
 - *Annual adjustments*- entries for items that are done once a year, such as the catastrophic leave donation, annual leave accrual, endowment true-ups to market value, endowed spending index distributions, and inventory adjustments.

In order to accurately record our financial position as of June 30th, much interdepartmental coordination is required. Timing of the completion of various documents, their approval, and their posting becomes more important.

Locating and correcting any errors in the financial system is particularly important. In addition to the monthly index reconciliations that have occurred at the department level all year, a higher level review occurs, and unusual activity is examined in more detail.

This process takes more time than the typical three business days after month end. The fiscal year end, which ends on June 30th, is not closed until sometime near the middle of July. This leaves several weeks during which both the new fiscal year and the old fiscal year can receive postings. Keeping the postings in the correct year becomes an issue.

DEPARTMENT TIPS

MONTHLY RECONCILIATIONS

Reconcile your indices monthly.

At year end departments are expected to have all entries in their operating ledger reviewed and correcting entries made. This expectation will be much easier to meet if indices have been reconciled monthly, correcting any errors throughout the year. There are three LEARN Manuals currently available online that explain reconciliation techniques at UNM, and are available in the following locations along with slide presentations:

<http://hsc.unm.edu/financialservices/accounting/learn.shtml>,

<http://www.unm.edu/~fssc/bannerbyte.html>

KNOW YOUR INDICES

Be aware of the types of charges that belong on your index, and what additional year end charges you can expect.

The charges you can expect in your index can vary widely. They depend on the type of index you have, the department you are in, and even which side of campus you are on. Review the charges in your index, or a similar index from the prior year, and understand what they are. If you can anticipate the types of charges that are likely to hit at the last minute, you can avoid unpleasant surprises.

Some charges that may be posted to your index near the end of the year end close process are:

- Unallocated P-card charges
- Reallocated P-card charges that posted to an incorrect index
- Physical plant charges such as utilities, auto repairs
- Bookstore charges
- ITS (Telecom)charges for phone service, maintenance, and installation
- Annual Leave accrual
- Catastrophic Leave donation
- Transfers between funds

P-CARDS

Encourage your P-Card holders to reallocate their year end charges as soon as they are received.

P-Card transactions are generally viewable within 3 days of the purchase. P-card holders have ten (10) days to review and, if necessary, reallocate the charges to a different index and/or account. If no action is taken within the ten (10) days, the charges will be automatically posted to the cardholder's default index and account.

P-Card charges post during the night train process once the ten day period has past. Encourage your P-Card holders, especially at year end, to review their charges daily and change the feed date to the current date. This enables the charges to post immediately instead of waiting 10 days. Timely posting of these charges allows administrators more time for review.

HOW TO MANAGE PURCHASE ORDERS

When you set up a purchase requisition that becomes a purchase order and it is known that it will only be used once, you can avoid having the encumbrance carrying forward after your purchase by entering, "One Time Item" in the document text. Purchasing will close your purchase order after your item has been purchased.

Many purchase orders are set up to be used for more than one purchase, with the dollar amount entered an estimate of the total anticipated purchases. If a balance remains on a purchase order that is no longer needed, the department must modify it to prevent the inaccurate encumbrances on the index. To do this, log into "MyUNM" (<https://my.unm.edu/cp/home/displaylogin>), go to the "Employee Life" tab and select "Electronic Forms".

Planned Electrical Outage 04/09/10 4:30am-6:00am
An Electrical Power Outage is planned for April 09, 2010 from 4:30am-6:00am in the Economics building #57 and Social Sciences building #78. This is required for Safety Equipment testing for lighting and automatic power transfer switches. Please remember to power off all computer and sensitive electrical equipment prior to the outage.

Please note that elevators in these buildings will also be affected.

Please [contact the IT Support Center](#) at 277-5757 if you have further questions.

Planned Power Outage Saturday 4/03/10 5:00 A.M. to 12-Noon
The Student Health and University Honors Program division (Building 73) will undergo a planned power outage on Saturday, April 3rd from 5:00am to 12:00noon. This is a required outage to test the emergency lighting systems and building electrical systems. It is recommended that computers and sensitive equipment should be turned off prior to the outage.

Please note that elevators will not be functional during the outage.

Please [contact the IT Support Center](#) at 277-5757 if you have further questions.

Trusted sites | Protected Mode: Off

Then select the *PO/PR Change Order Form* and login again if prompted, using your UNM Net ID and password. Also available immediately below this form is a link to the *PO/PR Change Order Procedure Guidelines* posted on the Purchasing web site for change order procedures.

Complete the PO/PR Change Order Request Form, below. If the purchase order is no longer needed, you can select the "Cancel Purchase Order or Purchase Requisition" block beneath the Vendor Name (not shown). Purchasing will notify you when your request has been processed.

The screenshot shows a web browser window displaying the UNM Purchasing website. The page title is "Change Order Request Form". The header includes "THE UNIVERSITY of NEW MEXICO" and a search bar. A navigation menu contains links for "UNM A-Z", "Directory", "FastInfo", "myUNM", and "Financial Services Home". Below the header is a banner with the UNM logo and the word "Purchasing". A secondary navigation bar includes links for "UNM Home", "University Services", "Accounts Payable", "Mail Stop Code Lookup", "UNM Hospital Bids", and "UNM Hospital Proposals". A third navigation bar includes "Purchasing Home", "Purchasing Staff", "PCard Information", "Policies & Procedures", "Fuel Card Information", and "Purchasing Training".

The main content area is titled "PO/PR Change Order Request Form". It contains the following text:

Please click here to review the change order guidelines and a matrix of allowable and unallowable change order requests prior to submitting the form.

Complete the following form and click on "Submit" to request a change order for a purchase requisition (PR), regular purchase order or standing purchase order. If you have backup documentation to accompany the change order request, please forward to the Purchasing Department via campus mail, or you may fax it to (505) 277-7774.

You will receive a confirmation email when your request is received in our office.

If you would like to print this form for your records, you may print it before clicking on "Submit."

Please note: You must have the auto complete feature turned off in order to complete this form. See [FastInfo Answer ID #870](#) for more information.

The form includes the following input fields:

- Requestor Name
- Requestor Phone Number
- Requestor Email Address e.g., purch@unm.edu
- Banner Purchase Order or Requisition Number e.g., PXXXXXXX or RXXXXXXX
- Vendor Name

Purchasing does a year end Purchase Order closeout. If your purchase order has a balance of \$100.00 or less at year end, it will be automatically closed by Purchasing. If your balance is larger, you must request action be taken to close the Purchase Order. To prevent funds from being needlessly encumbered, remember to close out unneeded Purchase Orders.

LEAVE ACCRUALS

Catastrophic Leave donations and Annual Leave accruals are done before the fiscal year end. To assist departments with calculating a close approximation of what the leave accrual for their departments will be, a worksheet is available on the HSC Unrestricted Accounting website under "Forms". A sample is provided in Appendix 5.

To use this worksheet, you will run Hyperion report FSH0002 for your department and export it to excel. From excel, you will copy a portion of it into this worksheet, and input the data needed for the yellow headed columns.

The funding column has a drop down menu, the other three require you to obtain additional information from other reports.

Catastrophic Leave donation expense is posted to be included in May Operating Ledger reports available in Hyperion. Annual Leave accruals are expected to be posted by the last day of June.

JOURNAL VOUCHERS, DP-EZ, REQUISITIONS

Departments are responsible for submitting and completing journal vouchers, DPI's and Purchase Requisitions within the timeframe given by the Year End Close schedule.

JOURNAL VOUCHERS

The Financial Services offices understand that departments require more time at year end to complete their final adjustments after reconciling their indices. This year departments will have until Tuesday, July 6th to enter, complete and approve all year end Journal Voucher entries.

The transaction date determines in which fiscal year the entries will post. It is particularly important to use "June 30, 2010", as the posting date for year end entries. When creating entries in July to post in Fiscal Year 2010, the initiator must change the transaction date to "30-JUN-2010" or use the calendar function to select June 30, 2010 for the transaction to post in Fiscal Year 2010; entries with a July posting date will post to fiscal year 2011.

Document Number: 30270791

Journal Voucher Document Header

Transaction Date: 30-JUN-2010 **This must be June 30, 2010 to post as a year end entry!**

Document Total: 12,000.00

NSF Checking Deferred Edit Document Text Exists: N

RE-DATING JOURNAL VOUCHERS

Many errors happen each year in this area. Be careful! If you do not remember to change the transaction date to 30-JUN-2010, your journal entry will post in 2011. This is the only time during the fiscal year when you need to remember to BACK DATE YOUR JOURNAL ENTRY, so it will post in the correct (prior year) timeframe.

Once the July 6th deadline for Journal Vouchers has past, if you find a significant, material adjustment that you believe needs to be posted before year end close, please contact your Financial Services office for instructions as early as possible, and NO LATER than July 12th.

TRACKING DOCUMENTS FOR APPROVAL STATUS

The routing of Banner documents (JVs, DPIs and Purchase Requisitions) and their current approval status can be tracked. From Banner form FOAAINP it can be determined how many queues remain in which must consider the document for approval. By highlighting each queue, the names of the potential approvers will be provided. Approval by any one person in each queue listed is still needed before the document will be posted.

In the example below, there are two queues remaining in which the Journal Voucher must be approved. One is the general accounting queue, and the other is the core accounting office. Because the *general accounting team* line is highlighted, the ten general accounting approvers' names are listed.

Oracle Developer Forms Runtime - Web: Open > FOAAINP
File Edit Options Block Item Record Query Tools Help
Document Approval Form: FOAAINP 8.0 (BANP)

Document: Type: Change Sequence: Submission:

Queue ID	Queue Description	Queue Level	Approval Level	Queue	Level	User
2010	GENERAL ACCT TEAM - GOODS, SVCS, JV	10		2010	10	Nelson, Douglas E
2014	RA Team 2 - Service, JV	10		2010	10	Tafoya, Isabelle G
				2010	10	Wrobel, Joseph Andrew
				2010	10	Webster, Keith L
				2010	10	Baumeister, Marsha L
				2010	10	Brooks, Melody Ann
				2010	10	Stewart, Marcia B
				2010	10	Rieckmann, Peter C
				2010	10	Carr, Shannon L
				2010	10	Gonzales, Veronica A

From form FOAAINP, you can see who has approved and/or denied your Journal Voucher. Go to "Options", and select "Approval History". The following form, FOIAPPH, will appear. From this form you can see that the document has been approved four times, and denied once.

To see the entire document text, including the name and phone number of the person denying it, select the small pencil (circled above) on the right. The form below will appear. From this information you will receive information concerning why it was denied. If this information is insufficient for you to correct the Journal Voucher, call the person who denied it for additional clarification.

BIWEEKLY SALARY ACCRUAL

Biweekly salary accruals are manually calculated in the Unrestricted Accounting and Reporting unit at HSC. The accrual is based on the prior month's distribution of payroll expense for the number of days to post in the calendar month that is paid in the next period. No action is needed by departments. HSC Unrestricted Accounting will post the biweekly salary accrual for the period of June 19-30, 2010 and reverse the accrual when the actual expense is posted by Banner HR/Payroll.

This accrual will allow HSC departments to project what their expected salary expense will be at year end.

OTHER YEAR END INFORMATION

You will find the year end schedule posted at <http://www.unm.edu/~fssc/> on the FSSC website. You will be notified by email when the year end schedule is modified.

YEAR END SCHEDULE CHANGES

The Year End Schedule deadlines are subject to change. When there are changes, you will be notified by email. You can then go to the posted schedule to see what the changes were. They will be clearly marked.

TASK NUMBERS ON YEAR END CLOSE SCHEDULE

Task numbers have been included on the year end schedule in the far left column. Only department specific items have been assigned task numbers as Financial Services offices' responsibilities frequently change based on process modifications and business needs.

PRELIMINARY BANNER TAX CALCULATIONS

Preliminary Banner Tax calculations will be processed on July 6th and again on July 13th, in order to provide departments with a close approximation of what the Banner Tax assessment will be in each index. The final assessment will occur just before year end close.
