

Poster session 5: Language acquisition, Diversity of speech gestures
Saturday afternoon, July 10

Language Acquisition

109

Albano, Eleanora

Revisiting consonant-vowel co-occurrence in adult and child language

154

Avesani, Cinzia; Vayra, Mario; Bohn, Ocke-Schwen

Perceiving phonetic contrasts through the lens of native phonology: Discrimination of non-native English consonant contrasts by Italian and Danish listeners

88

Cristófar-Silva, Thaïs; Miranda, Izabel; Almeida, Leonardo; Yehia, Hani Camille; Parlato, Erika

On the emergence of a complex syllable

157

Darcy, Isabelle; Krueger, Franziska

Vowel perception and production in Turkish children acquiring L2 German.

36

Davidson, Lisa; Adams, Tuuli

Longitudinal L2 acquisition of Russian consonant cluster coordination

198

Kong, Eun Jong; Beckman, Mary E.; Edwards, Jan

Different gestures explain different acquisition patterns for Japanese and Greek voiced stops

91

Noiray, Aude; Ménard, Lucie; Toupin, Corinne

Development of lingual gesture coarticulation for phonological contrasts in children

23

Simonet, Miquel; Cobb, Katherine

Reduction of unstressed vowels by English-speaking learners of Spanish

69

Song, Jae Yung; Demuth, Katherine; Ménard, Lucie; Shattuck-Hufnagel, Stefanie

Acoustic and gestural characteristics of a 2-year-old's American English coda consonants

Diversity of speech gestures

111

Bird, Sonya; Leonard, Janet

The role of articulatory restrictions in shaping sound structure: Evidence from SENĆOŦEN co-articulatory effects

94

Chitoran, Ioana; Marsico, Egidio

A perceptual test of language-specific temporal organization: The case of vowel devoicing

222

Déchainé, Rose-Marie; Barbosa, Adriano; Cardinal, Toni; van Vliet, Juliet; Vatikiotis-Bateson, Eric

How gesture shapes language

219

Storto, Luciana; Demolin, Didier

Lip gestures in Karitiana bilabial consonants

5

DiCanio, Christian

Tone Perception in Itunyoso Trique

214

Edmondson, Jerold; Chang, Yueh-chin; Huang, Hui-chuan; Hsieh, Feng-fan; Peng, Yu-ren

Voiceless applosive finals in Taiwanese and other E & SE Asian languages: Laryngoscopic case studies

182

Exter, Mats

Stiffness as an articulatory gesture in N|uu

130

Kilpatrick, Cynthia; Fitzgerald, Colleen

The contrast system in Tohono O'odham stops

102

Gelas, Hadrien; Besacier, Laurent; Rossato, Solange; Pellegrino, François

Using automatic speech recognition for phonological purposes: Study of vowel length in Punu (Bantu B40)

225

Keating, Patricia; Esposito, Christina; Garellek, Marc; Khan, Sameer ud Dowla; Kuang, Jianjing

Phonation contrasts across languages

63

Miller, Amanda

Guttural co-occurrence restrictions: Articulatory goals and adjacency

203

Mirzayan, Armik

Pitch Range Relations in Lakota Intonation

195

Reis Silva, Maria Amelia; Scott, Abigail

The phonetics and phonology of Blackfoot pre-aspiration

62

Tabain, Marija

An EPG study of contrastive focus in Arrernte palatal consonants

191

Vietti, Alessandro; Spreafico, Lorenzo

Uvular rhotics in German/Italian bilinguals: preliminary findings from an ultrasound study

211

Whalen, Douglas H.; Shaw, Patricia A.

Analogs of Tahltan consonant harmony in English CVC syllables

155

Zsiga, Elizabeth; Gouskova, Maria; Tlale, One

Labio-coronal fricatives in Sengwato: Phonetic evidence for a phonological contrast
