

paper#	title	poster session
1	What are the contextual phonetic variants of /β, ð, γ/ in colloquial Spanish?	Sat AM
5	Tone Perception in Itunyoso Trique	Sat PM
7	Prosodic Structure in ASL Narratives: L1-Deaf, L1-Hearing, and L2-Hearing Signers	Fri PM
16	Tracking laryngeal gestures and their impact on voicing	Thurs AM
20	Breaking into sign language: The gestural and visuo-spatial properties of classifier constructions in British Sign Language aid their acquisition by adult hearing learners	Fri PM
21	Gestural coordination of word initial clusters in Italian and what it tells us about syllable structure	Thurs AM
22	On the Psychological Reality of Turkish Sezer Stress	Thurs PM
23	Reduction of unstressed vowels by English-speaking learners of Spanish	Sat PM
24	Evidence for a dynamical approach to rhotics in Brazilian Portuguese	Thurs PM
25	Articulatory data and gestural organization of back fricatives in Brazilian Portuguese	Sat AM
29	Prosody and stress clash in the speech of children with typical and atypical language development	Thurs PM
34	The syllabification of Irish: a typological exception?	Sat AM
36	Longitudinal L2 acquisition of Russian consonant cluster coordination	Sat PM
38	Articulatory comparison of tonal alignment in Italian and Catalan: Preliminary data on broad focus and narrow-contrastive focus	Thurs PM
40	Can we hear a gesture? The influence of gestures on speech.	Fri PM
41	Inter-gestural timing in Belgian French vs. Southern French nasal vowels	Thurs AM
44	Cues to Word-final Geminate Consonants in Maltese	Sat AM
46	Effects on speech parsing of vowelless words in the phonology	Thurs AM
47	Native signers utilise auditory cortex to process signs, hearing non-signers do not: An MEG investigation of sign and gesture processing in German Sign Language	Fri PM
49	Weighting audio and visual cues in the perception of /f/ and /θ/ across talkers	Fri PM
50	Individual variation in speech perception as a source of 'apparent' hypo-correction	Sat AM
53	A Gestural Coupling Model of Tone, Consonant and Vowel Alignment in Mandarin Chinese	Thurs PM
54	Compensation for coarticulation with phonetically impoverished and rich stimuli	Thurs AM
57	A model of phonetic detail and reaction times in audio and visual perceptuo-motor interactions	Fri PM

58	The Phonological Representation of the Non-Dominant Hand: Evidence from Articulatory Compensation in ASL	Fri PM
60	The role of the motor system in sign language comprehension: evidence from studies of handedness	Fri PM
62	An EPG study of contrastive focus in Arrernte palatal consonants	Sat PM
63	Guttural Co-occurrence restrictions: Articulatory Goals and Adjacency	Sat PM
64	The Perceptual Time Course of Coarticulation	Thurs AM
65	Shadowing, phonetic imitation, and the role of articulatory gestures in speech perception	Thurs AM
67	Product-oriented vs. source-oriented generalization in miniature artificial languages	Sat AM
68	Gestural accommodation in a shadowing task: evidence from EPG data	Thurs AM
69	Acoustic and gestural characteristics of a 2-year-old's American English coda consonants	Sat PM
70	Gestures in sound change: anticipatory vs. perseverative assimilation	Thurs PM
71	Segment frequency, acoustic variability and prosodic structure	Thurs PM
72	Segment and tone errors in Mandarin Chinese tongue twisters	Thurs AM
73	Early language exposure affects the development of phonological representations in sign	Fri PM
74	The integration of somatosensory and auditory information in vowel production	Fri PM
76	An articulatory account of nasal place assimilation in Italian	Thurs AM
77	Group-final lengthening in non-speech finger movements?	Fri PM
80	Towards a knowledge-based system for accent classification in the British Isles	Sat AM
83	Intersubjectivity, phonetics and gesture in the design of turns at talk	Fri PM
84	Prosodic and information structure in Italian: Is there a domain-initial strengthening up to the discourse level?	Sat AM
85	Laryngeal gestures in whispered speech: an endoscopic study of English voicing contrasts	Thurs AM
88	On the emergence of a complex syllable	Sat PM
91	Development of lingual gesture coarticulation for phonological contrasts in children	Sat PM
92	Dynamical differences between constriction location and degree: Consequences for diachrony	Thurs AM
94	A perceptual test of language-specific temporal organization: The case of vowel devoicing	Sat PM
95	Learning of novel phonetic categories after training in perception and production	Sat AM
97	Alveolopalatalization in Standard Chinese: gestural assimilation	Thurs AM

102	Using automatic speech recognition for phonological purposes: Study of Vowel Length in Punu (Bantu B40)	Sat PM
106	Compensation for local perturbation of fricative acoustic feedback	Sat AM
107	Speech/gesture relationship in deictic pointing	Fri PM
108	Temporal (in)dependence of segment-internal gestures in American English /l/	Thurs AM
109	Revisiting Consonant-Vowel Co-occurrence in Adult and Child Language	Sat PM
110	The Phonetic Realization of High Locations in American Sign Language	Fri PM
111	The role of articulatory restrictions in shaping sound structure: Evidence from SENĆOŦEN co-articulatory effects	Sat PM
112	Bilingual children's iconic gesture use in their strong and weak languages	Fri PM
113	Temporal organization of three-consonant onset clusters in American English	Sat AM
114	Phonetic cues and phonological constraints in prosodic unit definition: evidence for the intermediate phrase in French	Thurs PM
115	An Edinburgh Speech Production Facility	Sat AM
116	Learning to be a sign language user: the influence of gestures and visual iconicity on the acquisition of British Sign Language phonology in hearing adults	Fri PM
117	Incomplete Neutralization in American English Flapping	Sat AM
118	Voicing Profiles, Gestural Coordination and Phonological Licensing: Obstruent-Sonorant Clusters in Polish	Thurs AM
120	The problem of visual targets in sign language phonology	Fri PM
121	The influence of acoustic reduction on the informativeness of semantic contextual information	Sat AM
122	Covert contrast in the speech of hearing impaired children	Fri PM
123	Place of Articulation and Lingual Coarticulation of Korean Coronal Obstruents: An Electropalatographic Study	Thurs AM
124	Do Articulatory Constraints Play a Role in Speech Errors?	Thurs AM
125	Pragmatic function as a co-determiner of gradient pronunciation variation	Sat AM
126	Visual Subliminal Primes Affect Vowel Perception	Fri PM
130	The Contrast System in Tohono O'odham Stops	Sat PM
132	The time-course of competition	Thurs AM
134	Timing of tongue tip & dorsum gestures in French and Georgian /l/s	Thurs AM
135	Prosodic variation and articulatory constraints in German consonant clusters	Thurs AM

136	The relation between phonological and auditory processing: Evidence from ERPs	Sat AM
137	On the perceptual relevance of articulation without acoustics: A case study of Berber word-initial geminate voiceless stops	Fri PM
138	Is longer also stronger? The relationship between temporal and spatial expansion in domain-initial prosodic strengthening of vowels	Thurs PM
142	Epenthetic vowels: mere gestural mistiming?	Thurs AM
143	Gestural control in the English past-tense suffix: an articulatory study using real time MRI	Thurs AM
144	Automatic Classification of Tongue Gestures in Ultrasound Images	Thurs AM
147	Prosodic boundaries and what they tell us about the nature of gestural goals in production.	Thurs PM
148	Understanding the Role of Voice Quality in Burmese Lexical Tone: An Aerodynamic and EGG Study	Thurs PM
150	Interpreting pre-peak palatal glides: a phonetic approach	Sat AM
151	Evaluating markedness in the lexicon: Harmony and disharmony in English	Sat AM
152	Electrophysiological correlates of Spanish Sign Language (LSE) processing: Evidence for semantic and phonological structure.	Fri PM
153	Phonological Consistency and Phonetic Variation: Tonal Alignment in Three Neo-štokavian Dialects	Thurs PM
154	Perceiving phonetic contrasts through the lens of native phonology: Discrimination of non-native English consonant contrasts by Italian and Danish listeners	Sat PM
155	Labio-Coronal Fricatives in Sengwato: Phonetic Evidence for a Phonological Contrast	Sat PM
156	Tonal Center of Gravity: How F0 contour shape can matter without configurations	Thurs PM
157	Vowel perception and production in Turkish children acquiring L2 German	Sat PM
158	/u/-fronting in RP and the implications of perceptual integration of lip gestures for sound change processes	Fri PM
160	Gestural conflict and laryngeal height	Thurs AM
161	Context-dependent cost of articulatory gestures: insights from segmental durations	Thurs AM
163	Incomplete neutralization and prosodic conditioning of voice assimilation in Czech	Thurs PM
166	Processing of Vowel Height Relies on Abstract Representations: An MMN Study	Sat AM
167	The Minimal Speech Unit Involved in Phonological Encoding and Articulation	Thurs AM
168	Modeling perceived prosody: speaker-dependent vs. speaker-independent model	Thurs PM
171	Effects of prosodic boundary strength on inter-gestural timing in English onset laterals	Thurs PM
172	Contrastive alignment of f0 events in homorganic vowel sequences	Thurs PM

173	Applying Articulatory Phonology to Movement in American Sign Language	Fri PM
174	Gestural overlap in labial and dorsal stops in Korean: a failure of parallel transmission	Thurs AM
175	Cross-dialectal study on temporal modulation patterns in stress manifestation	Thurs PM
176	What kinds of rate-carrying information in speech permit generation of prosodic expectancies for recovery of spoken gestures?	Thurs PM
179	Mixed voicing and temporal overlap: EMA and aerodynamic observations from Moroccan Arabic	Thurs AM
182	Stiffness as an Articulatory Gesture in N uu	Sat PM
183	What can prosodic constituency and prominence tell us about the n -gesture scope?	Thurs PM
184	Acoustic and articulatory correlates of prosodic prominence	Thurs PM
185	The temporal scope of boundaries as a function of prominence in Greek	Thurs PM
188	Inter-segmental timing of rC sequences in Norwegian	Thurs AM
189	Scottish English vowel + /r/ rimes: an ultrasound study of social variation in gestures, phonotactics, and phonological inventory	Sat AM
190	Re-linking phonetic and phonological similarity	Sat AM
191	Uvular rhotics in German/Italian bilinguals: preliminary findings from an ultrasound study	Sat PM
193	Complex pause patterns in child and adult storytelling	Sat AM
195	The phonetics and phonology of Blackfoot pre-aspiration	Sat PM
196	Defining an articulatory joint space for sign language handshapes	Fri PM
197	Temporal organization within and across syllables	Sat AM
198	Different gestures explain different acquisition patterns for Japanese and Greek voiced stops	Sat PM
201	Articulatory gestures enhance auditory contrasts: Evidence from evoked magnetic fields	Thurs AM
202	Projection of the structure of a syllable in Korean intervocalic weakening	Thurs AM
203	Pitch Range Relations in Lakota Intonation	Sat PM
206	Some effects of altered visual feedback on sign production	Fri PM
207	Lexical Frequency and Tone Sandhi in Hai'an Mandarin	Sat AM
208	Schwa deletion under varying prosodic conditions	Thurs PM
209	Do non-speech contexts mask or contrast with speech targets?	Thurs AM
210	Japanese vowel devoicing as a gestural overlap	Thurs AM

211	Analogues of Tahltan consonant harmony in English CVC syllables	Sat PM
214	Voiceless applosive finals in Taiwanese and other E & SE Asian Languages: laryngoscopic case studies	Sat PM
215	How does a language contrast four distinct coronal stop places? Differentiation of lingual gestures by speakers of Wubuy (Australia)	Thurs AM
216	Phonetic Correlates of German Weak Pronoun Cliticization	Sat AM
217	From eye to mouth: Connecting non-linguistic visual grouping and linguistic prosody	Fri PM
219	Lip gestures in Karitiana bilabial consonants	Sat PM
220	Asymmetries in Spanish-English Gestural Drift: Data and Model	Sat AM
222	How gesture shapes language	Sat PM
225	Phonation contrasts across languages	Sat PM
226	Articulatory versus Acoustic Representation of Tone	Thurs PM
229	Vowel articulation in absolute initial position of different prosodic constituents in French	Thurs PM
230	Linear separability and feature selection in the acquisition of tones	Thurs PM
