*This program was a very special program conceived, developed and implemented at Wilford Hall Medical Center in conjunction with the Audie L. Murphy Veteran's Administration Hospital in order to promote nurses who were currently working in other parts of the hospital and assist in their transition into the critical care area. This was a three-month rigorous training program that involved the cooperation of over 40 administrators, 100 instructors, and three major medical centers. This was used Air Force wide and recognition for this accomplishment was presented at the Air Force Association 1996 awards meeting for most significant contributions to Air Force nursing. After 10 years this program is still in existence and working for all critical care nurse educators in the city of San Antonio.*
