Justicia Sin Fronteras

Justice Without Borders

Justicia Sin Fronteras (JSF) is an official UNM student organization for students in all disciplines who are interested in US-Mexico border and migration issues. During the fall of 2003, students reacting to the femicides in Ciudad Juárez, Mexico formed JSF. Understanding the importance of New Mexico's role as a border state, we decided to take action and raise public awareness by educating the UNM community.

JSF is a relatively new organization that welcomes anybody interested in border and migration issues such as:

- Immigration Law
- Bilingual Education
- Women's/Human Rights

We are looking for new members to join the organization and help us move forward in the explorations for solutions to these problems.

JSF welcomes diversity among its members. We respect all political, ideological and religious viewpoints.

JSF sponsors biweekly meetings where we discuss the progress of the group and future events to come including:

- Cultural Events
- Documentary Showings
- Informational Panels
- Fundraising
- Travel Opportunities
- Undergraduate and graduate field experience

JSF offers students an opportunity to gain real life experience in understanding the social problems that exist along the borderlands.
