

## Connector

Name \_\_\_\_\_

Book \_\_\_\_\_ Assignment \_\_\_\_\_

**Connector:** Your job is to find connections between the material your group is reading and the world outside. This means connecting the reading to your own life, to happenings at school or in the community, to other learning you have, to other knowledge you have, or within the reading itself. There are no right or wrong answers here—whatever connections you see are worth sharing!

**Some connections I found between this reading and other people, places, events, authors...**
