Questions I had about this reading:

Questioner: Your job is to write down a few questions that you had about this selection. What were you wondering about while you were reading? Did you have questions about what was being described? What a word meant? How things fit together? What the whole thing meant? Just try to notice what questions pop into your mind as you read, and jot them down, either while you read or after you're finished.

Assignment _____ Book _____
