## Why Use Boolify:

We have observed what librarians, teachers and parents have told us -- that young people search the web with difficulty. Boolify helps students bridge that gap by visualizing the process and letting students interact with the abstract concept behind the search process in a tangible and hands-on way.

See [Boolify](#) in action.

- \* Boolify is intuitive and easy to use with your class or in your library.
- \* You and your students will be up and running with the tool in a few short minutes

No filtering technology is 100% secure, as [this blog posting](#) astutely points out, and we are unable to control or modify the results, beyond the filtering settings available through Google.

## More Background:

Dede (2000) astutely noted that "children must learn how to sift vast quantities of information through their fingertips" and "thrive on chaos". In our lifetimes, the quantity of information available for sifting-through has increased exponentially.

The tools for "learning or teaching how to sift" have not maintained pace with the growing need to teach those "sifting" skills. With this challenge in mind, the Boolify Project developed a software solution that models Boolean operators in an easy-to-digest and interactive format.

Boolify's primary audience is elementary and middle school children, but the tool brings value in many spaces. Ultimately, our goal is to increase a learner's ability to perform effective web searches - whether that learner is 6 or 66.

Boolify helps people visualize the logic behind their searches. Understanding how the logic works improves people's ability to effectively search. The visuals help learners build mental models of the searches that they perform. A mental model is an internal way of remembering information guides future practice of that information.

Boolify's graphical representation shows Boolean logic as a puzzle - literally, a jigsaw puzzle. It has interconnected search terms and operator pieces. Fitting these pieces together perform a search.

The learner can change the search and see the results change by connecting different pieces of the puzzle. This provides real-time feedback and lets the learner see how well - or not so well - the search worked for them.

# Chatbots.org <http://www.chatbots.org/>

The screenshot shows the Chatbots.org website. At the top, there's a navigation bar with links like 'Directory', 'Business', 'Research', 'Awards', 'Community', and 'Forums'. Below this, the 'Virtual Agents / Chatbots Directory' is featured. It includes a search bar, a country filter (set to United States), and a list of popular countries. Two chatbot profiles are highlighted: 'Lexee', a virtual assistant for Angel.com, and 'Javier', a virtual agent for Sustentum. Both profiles include a description of their capabilities and a small image. On the right side, there's a 'Synonym Compilation' section with a '57?' score and a 'Hot on AI Zone' section with a list of AI-related topics. At the bottom right, there's a 'Gallery' of various chatbot avatars.

The screenshot shows the ToonDoo website homepage. At the top, there's a navigation bar with links: Toons, Books, Doers, Tools, Compleetons, Shop, and Etc.,. A search bar and a 'Log in' link are also present. A prominent banner reads 'Starts With!' and 'A million words are going up in flames! And only you can save them!'. Below this, a large graphic shows a hand dragging a cartoon character into a comic strip, with the text 'CREATE YOUR OWN COMIC STRIPS WITH JUST A FEW CLICKS, DRAG & DROPS'. To the right, a list of tools is shown: ToonDoo Maker (Create your own comics!), Book Maker (Make a ToonBook!), TraitR (Make a character!), ImagineR (Click here to upload!), and Doodler (Add drawing touches!). A 'Sign Up for FREE!' button is in the top right. Below the tools, a 'Buzz @ ToonDoo!' section displays user avatars and their recent creations, such as 'Chico Seducor', 'gymastics', '7 roles of Obama', 'The Squire's Tale', and 'Rikki Tikki tavi honers project'. A 'ToonDoo Shop' banner is also visible, advertising 'BUY printable images of your favorite Toons at Toondoo!'. A sidebar on the right promotes 'Also from ToonDoo!' with links to 'Comics-based social network', 'Easy-to-use book creator', 'Loads of cartoon gallery and creative features', and 'Safe, Secure, Private!'. A 'ToonDoo Shop!!' section further details the shop's offerings, including a 'hi-res image of : Toon at ToonDoo in 3 easy step'.

The screenshot shows a ToonBook viewer interface. The left page features a cartoon character's head and the name 'Nusya' below it. The right page is titled 'HOW TO ANNOY PEOPLE.' and contains the text: 'THIS IS A BOOK ABOUT THE WAYS TO GET ON PEOPLE'S NERVES AND JUST FLAT OUT ANNOY THEM TO SHREDS.' Below the text, there are tags: 'FUNNY HUMOR ANNOYING ANNOY'. A 'Go' button is located at the bottom right of the right page. The bottom of the viewer shows a navigation bar with a 'How to annoy people. by Nusya' label, a page indicator '0 of 5', and navigation arrows.

Prosperity without Growth Map Home #32883

Exploring the relationship between prosperity and economic growth: and seeking to develop a new vision of the capability of humanity to flourish within the ecological limits of a finite planet.

**'Business as usual is not an option.'**  
Oliver James, author of *Affluenza*

**PROSPERITY WITHOUT GROWTH**  
Economics for a Finite Planet

**TIM JACKSON**

WITH FOREWORDS BY  
HERMAN DAILY, BILL MCKIBBEN,  
MARY ROBINSON & PAVAN SUKHDEV

(Click image above to download and read Chapter 1)

In the few months since the [Sustainable Development Commission](#) released its report – [Prosperity Without Growth](#) - President Nicolas Sarkozy has asked world leaders to join a revolution in the measurement of economic progress. Sir Nicholas Stern has warned 'at some point we would have to think about whether we want future growth', and John Prescott has called the current economic growth model 'immoral'.

In [Prosperity without Growth: Economics for a Finite Planet](#) an updated and expanded version of the SDC report, Tim Jackson offers a new vision of a shared prosperity: the capability to flourish as human beings - within the ecological limits of a finite planet. Fulfilling that vision, he argues, is simply the most urgent task of our times.
