Oral Report Topics with Presenters Listed

Pairs of two students will pick one essay and collaboratively do an oral report on the essay, culling out the argument and most important information for the class. Reports should be 15 minutes long and accompanied by a handout for the class that can be distributed electronically. The essays are on eReserve, unless otherwise noted. Please email me with your choices (first and second) of topic by NOON on Wednesday, February 2, 2011. I will issue a list with all the presenters shortly after that.
