Making a Difference in the Lives of All New Mexicans

VISION
The vision of the UNM Health Sciences Center is to identify and solve the most important questions of human health in education, scholarship, and clinical care.

MISSION
The mission of the UNM Health Sciences Center is to provide added value to health care through leadership in:
• innovative, collaborative education;
• research critical to the future of health care;
• health care services at the forefront of science; and
• partnerships with biomedical and health enterprises.

ORGANIZATION
The UNM Health Sciences Center consists of five interdependent academic and clinical components.

• UNM College of Nursing
• UNM College of Pharmacy
• UNM School of Medicine
• UNM Health Sciences Library & Informatics Center
• UNM Hospitals

The components of UNM Hospitals include:
• UNM Hospital
• UNM Children’s Hospital
• UNM Carrie Tingley Hospital
• UNM Children’s Psychiatric Center
• UNM Psychiatric Center
• UNM Cancer Research and Treatment Center

TOP PROGRAMS AT THE HSC
The UNM Health Sciences Center is recognized internationally for the problem-based learning method we developed. Our problem-based learning model is used in health professions schools across the nation.

Compared to medical schools nationwide, US News & World Report ranked the UNM School of Medicine curriculum*:

• 2nd in Rural Medicine
• 4th in Primary Care
• 5th in Family Medicine

The UNM College of Nursing master’s degree program is nationally ranked in the top 10% of all nursing schools, and our Occupational Therapy program is ranked in the top third of OT programs nationwide.

*2003 “America’s Best Graduate Schools”

For additional information, please contact R. Philip Eaton, MD, Vice President for Health Sciences, (505) 272-5849.
## UNM HSC REVENUES: THE LEGISLATIVE INVESTMENT

*Includes use of balance totaling $22,482,500 (3.4% of total)

**Includes $36.6 million federal funds for teaching hospitals (DSH, IME, GME)

## ECONOMIC DEVELOPMENT

- A commissioned study for UNM estimated that the federal and other out-of-state dollars that the HSC (including University Hospital) brought into New Mexico during FY 2000-2001 supported, directly and indirectly, an estimated 6,821 jobs for $251 million in wage and salary income. A total of $318.8 million of UNM Health Sciences Center expenditures were supported by funds attracted from out-of-state. This injection of funds into the New Mexico economy had a total economic impact of $508.5 million due to a multiplier of 1.59.

- Every dollar the New Mexico Legislature invests in the UNM Health Sciences Center benefits New Mexicans through:
  - Creation of jobs
  - Contribution to the tax base
  - Increased federal and out-of-state dollars brought into the state
  - Improved quality of health care
  - Improved quality of life
  - Attracting new businesses to New Mexico
