Albuquerque Math Teachers’ Circle

Come and have Fun with Mathematics!!

About the Math Teachers’ Circle
Mathematics teachers, 5th through 9th grades, who are interested in exploring engaging topics in mathematics and who strive to incorporate a problem solving approach in their classroom are encouraged to participate in this Professional Teachers’ Circle. Participants gain a variety of resources, membership in a dynamic community of mathematics educators, and a renewed sense of appreciation for the fascinating world of mathematics.

REGISTER Now for the next event.
All meetings will be from 5:30-8:00 pm

Squares, Squares, Squares
With Mike Nakamaye, UNM. A chance to interact with the patterns of squares.

Dusty Brooks from UNM will be featured to discuss a mathematics topic.

Centimeters, Grams, Seconds
Alex Buium from UNM. The philosophical implications of Units and Conversions

Kristin Umland, UNM, a Summer Math Institute favorite will be featured.

Number Sequences
A look at the golden ratio and Fibonacci Sequence with Martha Bryne, UNM.

Cristina Pereyra from UNM will share one of her favorite math topics.

Albuquerque Math Teachers’ Circle Mission Statement
The Albuquerque Math Teachers’ Circle supports local teachers who desire to explore mathematical ideas in a fun, encouraging environment. Our meetings provide an opportunity for participants to work on interesting problems, developing their mathematical knowledge, skills, and intuition, with the support of leading mathematicians and scientists from the local community.
